SUBJECT INDEX

VOLUME 38

aadA2
pSA
revised analysis, 1172
Acanthamoeba spp.
polyaminopropyl biguanide
quantitation and kinetics of killing, 886
Acinetobacter baumannii
aac(6')-Ih
characterization of plasmid gene, 1883
susceptibility testing
clinical isolates from Singapore, 2502
Acinetobacter calcoaceticus
ciprofloxacin
serum bactericidal activities in 30 patients, 837
Acinetobacter sp. 13
aac(6')-Ij
characterization of gene, 1883
Acinetobacter spp.
PCR
detection of *aac(6')-I* gene in amikacin-resistant strains, 2925
Acridine alkaloids
P. falciparum
in vitro activities, 1169
Acute otitis media
amoxicillin-clavulanate
comparison of suspensions for treatment of children, 315
cefuroxime axetil
comparison of suspensions for treatment of children, 315
Acyclovir
comparative evaluation
high versus standard dose for first-episode genital herpes infections, 174
herpes simplex virus
regulation of thymidine kinase in cells treated with synergistic antiviral combination, 853
Aeromonas salmonicida
quinolone resistant
gyrA mutations in isolates of the fish pathogen, 2460
Aeromonas spp.
β-lactam resistance
motile isolates from clinical and environmental sources, 353
AIDS patients
cytomegalovirus
effectiveness of foscarnet induction treatment on quantitation of DNA, 38
GLQ223
safety, activity, and pharmacokinetics, 260
Ajoene
malaria
in vivo activity against infections in rodents, 337
Albendazole
P. carinii
inhibition of proliferation in inoculated immunosuppressed mice, 1834
Alkyl glycerol ethers
synergy
amphotericin B, 1523
Alpha interferon
herpes simplex virus
regulation of thymidine kinase in cells treated with synergistic antiviral combination, 853
Amikacin
human necrotizing pancreatitis
behavior, 830
P. aeruginosa
pharmacokinetic and pharmacodynamic approach for comparing two therapeutic regimens, 981
Tn*1528*
characterization for resistance studies, 702
Aminocyclitols
Mycobacterium spp.
in vitro susceptibilities, 134
Aminoglycoside 3′-phosphotransferases
type IIa
purification and characterization and kinetic comparison with new mutant enzyme, 641
Aminoglycosides
gentamicin
once-daily dosing assessed by MIC reversion time, 1165
LLC-PK_1 cells
induction of increase in intracellular calcium, 1065
Mycobacterium spp.
in vitro susceptibilities, 134
pharmacokinetics
comparison with Asian, Hispanic, and Caucasian patients by using population pharmacokinetic methods, 2073
effect of fever and changes in glomerular filtration rate, 620
tobramycin
once-daily dosing assessed by MIC reversion time, 1165
Amoxicillin
bioavailability
effects of presystemic degradation in the intestine of rats, 842
L. monocytogenes
inhibition of intracellular growth, 438
pharmacokinetics
simulation in humans for prevention of streptococcal endocarditis in rats, 2846
Y. pestis
treatment of murine infection, 481
Amoxicillin-clavulanate
acute otitis media
comparison of suspensions for treatment of children, 315
C. albicans
colonization of gastrointestinal tracts of mice, 602
Amoxicillin-clavulanic acid
B. burgdorferi
effectiveness of treatment in mice, 1567
Amphotericin B
antifungal activity
influence of lipoproteins, 223
C. albicans
accumulation in human monocytes potentiates killing, 13
antagonistic effects of fluconazole and 5-fluorocytosine with human serum, 1331
physicochemical cell damage, 363
candidiasis
treatment of murine infections by incorporation into egg lecithin-bile salt mixed micelles, 294
cryptococcosis
treatment of murine infections by incorporation into egg lecithin-bile salt mixed micelles, 294
errata
influence of lipoproteins on renal cytotoxicity and antifungal activity, 2230
itraconazole
comparison for experimental pulmonary aspergillosis, 1303
murine cryptococcosis
in vitro renal toxicity and in vivo therapeutic efficacy associated with intralipid, 177
murine trichosporonosis
efficacy compared with those of triazoles and amphotericin B-triazoles, 2541
mycoses
molecular and cellular aspects of incorporation in egg lecithin-bile salt mixed micelles, 294
pharmacokinetics
concentration in serum and distribution in tissue in rats during intralipid infusion, 2224
safety of unilamellar liposomal formulation in rabbits, 713
renal cytotoxicity
influence of lipoproteins, 223
saperconazole
efficacy and interactions in therapy of murine disseminated candidiasis, 371
synergy
alkyl glycerol ethers, 1523
T. glabrata
treatment of disseminated infection, 1604
toxic pathways
endocytic process in CHO cells, 2373
Amphotericin B deoxycholate
toxicity
influence of diet, 963
Amphotericin B-liposomes
Candida spp.
systemic infections in mice, 356
Ampicillin
C. albicans
colonization of gastrointestinal tracts of mice, 602
E. faecium resistance
correlation with overproduction of low-affinity penicillin-binding protein, 1980
Anaerobic bacteria
DU-6859a
in vitro activity, 2504
glycylcyclines
in vitro activities of *N,N*-dimethylglycylamido derivatives of minocycline and 6-demethyl-6-deoxytetracycline against 339 strains, 2513
GV104326
in vitro activities of the tribactam, 2362
Anaerobic organisms
biapenem

in vitro activity, 889
CP 99,219
comparison with ciprofloxacin, grepafloxacin, metronidazole, cefoxitin, piperacillin, and piperacillin-tazobactam, 2471
WY-49605
activity compared with those of amoxicillin, amoxicillin-clavulanate, imipenem, ciprofloxacin, cefaclor, cefpodoxime, cefuroxime, clindamycin, and metronidazole against 384 anaerobes, 2599
Anthelmintic benzimidazoles
C. neoformans
in vitro susceptibility, 378
Antimycobacterial agents
efficacy
bone marrow-derived murine macrophage model for evaluation, 2557
Antiviral nucleoside analogs
human DNA polymerases
effects, 2743
mitochondrial DNA synthesis
effects, 2743
Arcanobacterium haemolyticum
susceptibility testing, 142
Arthritis
doxycycline
reduction of matrix metalloproteinase 8-neutrophil collegenase levels during long-term treatment, 400
Aspergillosis
amphotericin B colloidal dispersion
dose-dependent antifungal activity and nephrotoxicity, 518
minireview
strategies in prevention for immunosuppressed or neutropenic patients, 911
Aspergillus fumigatus
amphotericin B
new in vitro assay based on glucose consumption for determining activities, 2857
antifungal agent combinations
effects of those administered simultaneously and seqentially, 2843
(1,3)-β-D-glucan synthase
characterization and cilofungin inhibition, 937
cyclosporin A
in vitro and ex vivo effects on phagocytic host defenses, 2883
itraconazole
new in vitro assay based on glucose consumption for determining activities, 2857
lipopeptides
morphological effects correlate with activities against (1,3)-β-D-glucan synthase, 1480
3′-Azido-3′-deoxythymidine
antiretroviral activities
differential activities and intracellular metabolism in human cells, 1573
feline immunodeficiency virus
multiple-drug-resistant mutants, 861
human immunodeficiency virus type 1
effect of establishment of infection in cultured $CD8^+$ lymphocytes, 986
inhibition of replication in vitro with bisheteroarylpiperazine reverse transcriptase inhibitor, 288
Azithromycin
B. burgdorferi
effectiveness of treatment in mice, 1567
bacterial enteric pathogens
intracellular activity, 1915
chlamydia
in vitro and in vivo activities, 2296
L. pneumophila
pharmacokinetics and intracellular concentrations in infected and uninfected guinea pigs, 217
M. avium
comparative activities against infection in beige mice, 1452
intermittent dosing for treatment of beige mice, 1721
M. avium complex
inhibition of binding to HT-29 intestinal mucosal cells, 1200
M. kansasii
activities in beige mice, 1455
M. malmoense
activities in beige mice, 1455
M. simiae
activities in beige mice, 1455
M. xenopi
activities in beige mice, 1455
murine malaria
efficacy as a causal prophylactic agent, 1862
N. gonorrhoeae
susceptibility of isolates from women with pelvic inflammatory disease, 1688
Oxyrase agar dilution
comparison with reference agar dilution method for susceptibility testing of anaerobes, 211
P. aeruginosa
in vitro exoenzyme-suppressing activities, 528
penetration
intracellular and extracellular penetration into inflammatory and noninflammatory blister fluid, 2449
T. gondii
localization in infected cells, 1620
T. gondii resistance
comparison of mutants, 31
Azlocillin
P. aeruginosa
time-survival studies for quantifying effects, 1271
Azoles
C. albicans resistance
oropharyngeal strains isolated from patients with human immunodeficiency virus, 2495
Aztreonam
typhoid fever
randomized comparison, 558

Babesia divergens
lovastatin
inhibition of in vitro development in human erythrocytes, 1144
simvastatin
inhibition of in vitro development in human erythrocytes, 1144
Bacillus licheniformis
amoebicin M4-A
biological activity from strain M-4, 1820
Bacteria
anastomotic insufficiency
major pathogenic factor, 2564
Bacteroides fragilis
BAY Y 3118
comparative activities, 1442
β-lactams
contribution of enzymatic properties, cell permeability, and enzyme expression to microbiological activities in isolates that harbor a metallo-β-lactamase gene, 2116
clinafloxacin
comparative activities, 1442
E-4868
comparative activities, 1442
E-5065
comparative activities, 1442
E-5068
comparative activities, 1442
susceptibility testing
longitudinal study with five agents in three medical centers, 2276
Bacteroides spp.
metronidazole
in vitro activities of drug and its hydroxy metabolite, 2106
5-nitroimidazole
nucleotide sequence analysis, 1047
Bacteroides uniformis
cblA
molecular and genetic analysis of cephalosporinase gene encoding species-specific β-lactamase, 1711
BAY Y 3118
human polymorphonuclear leukocytes
intracellular penetration and activity, 2426
Bay y3118
gram-negative bacteria
activity against quinolone-resistant strains, 422
activity against quinolone-susceptible strains, 422
gram-positive bacteria
activity against quinolone-resistant strains, 422
activity against quinolone-susceptible strains, 422
Benomyl
C. albicans
gene encoding resistance is multidrug resistance gene, 648
Benzimidazoles
β-tubulin sequence
correlation and antiprotozoal activities, 2086
Benzoxazinorifamycins
KRM 1648
activity against *M. avium* complex in vitro and in macrophages, 1838
β-Lactamases
B. uniformis
molecular and genetic analysis of *cblA*, cephalosporinase gene, 1711
bla_{BIL-1}
cloning and sequence analysis of gene in *E. coli* BS, 1182
carbamates
hydrolysis, 959
CAZ-3
sequence, 2452
chromosomal

antibodies against, 2306
clavulanate resistance
reversal conferred by mutant of TEM-1, 1134
clavulanic acid
comparative activities, 767
CTX-2
sequence, 2452
extended spectrum
clinical isolates of *E. gergoviae* and *E. coli* resistant to ceftazidime in China, 2838
K. pneumoniae
gene sequence and biochemical characterization of FOX-1, 2150
identification of extended-spectrum TEM-12 and TEM-10 in single isolate, 761
TEM-26 responsible for major outbreak of ceftazidime-resistant infections, 392
M. fortuitum
use of chromosomal class A to study substrates and inhibitory β-lactam compounds, 1608
metallo
rapid identification, 991
P. aeruginosa
sequence analysis of PER-1 and comparison with class A β-lactamases, 104
cephalosporin 3′-quinolone esters
hydrolysis, 959
S. aureus
production of A and C variants by methicillin-resistant strains, 1649
serine
rapid identification, 991
Sme-1
cloning and sequence analysis of gene from *S. marcescens*, 1262
sulbactam
comparative activities, 767
tazobactam
comparative activities, 767
TEM-1
effect of threonine-to-methionine substitution at position 265 on structure and function, 2266
TEM-26
major outbreak of ceftazidime-resistant *K. pneumoniae*, 392
tertiary amines
hydrolysis, 959
X. maltophilia
biochemical properties, 2143
β-Lactams
Aeromonas sp. resistance
motile isolates from clinical and environmental sources, 353
E. coli
effect of hyperproduction of TEM-1 β-lactamase, 494
oxyimino
interaction with class C β-lactamase and mutant with spectrum extended to β-lactams, 1374
penicillin-binding proteins
study and purification, 973
S. aureus
comparison with glycopeptides in treatment of subcutaneous abscesses, 1023
S. pneumoniae
in vitro selective concentrations, 122
synergy
glycopeptides and glycopeptide-resistant strains of *E. faecium*, 824
X. maltophilia
susceptibilities of 123 strains tested by five methods, 2317
Biapenem
anaerobic organisms
in vitro activity, 889
Bioavailability
amoxicillin
effects of presystemic degradation in the intestine of rats, 842
isoniazid
effect of antacids in didanosine tablet, 894
Biofilms
antibiotic killing efficacy
mechanism of electrical enhancement, 2803
P. aeruginosa
biofilm accumulation model that predicts antibiotic resistance, 1052
Bleomycin
S. cerevisiae
potentiation of cytotoxicity, 1615
Borrelia burgdorferi
amoxicillin-clavulanic acid
effectiveness of treatment in mice, 1567
azithromycin
effectiveness of treatment in mice, 1567
ceftriaxone
effectiveness of treatment in mice, 1567
chloramphenicol
effectiveness of treatment in mice, 1567
doxycycline
effectiveness of treatment in mice, 1567
erythromycin
effectiveness of treatment in mice, 1567
oxytetracycline
effectiveness of treatment in mice, 1567
penicillin G
effectiveness of treatment in mice, 1567
Bronchopneumoniae
ciprofloxacin
penetration into bronchial secretions from mechanically ventilated patients with nosocomial infections, 901
Brucellosis
doxycycline-rifampin
possible implications of interaction for treatment, 2798

Campylobacter spp.
macrolides
evolution of susceptibilities, 1879
quinolones
evolution of susceptibilities, 1879
susceptibility testing
10 antimicrobial agents against strains isolated from feces of pediatric patients, 2917
Cancer
ciprofloxacin
susceptibilities of isolates from patients, 848
levofloxacin
susceptibilities of isolates from patients, 848
ofloxacin
susceptibilities of isolates from patients, 848
Candida albicans
22,23-epoxy-2-aza-2,3-dihydrosqualene
inhibition of sterol synthesis in conjunction with corresponding *N*-oxide, 1904
amoxicillin-clavulanate
colonization of gastrointestinal tracts of mice, 602
amphotericin B
accumulation in human monocytes potentiates killing, 13
antagonistic effects of fluconazole and 5-fluorocytosine with human serum, 1331
physicochemical cell damage, 363
ampicillin
colonization of gastrointestinal tracts of mice, 602
azole resistant
oropharyngeal strains isolated from patients with human immunodeficiency virus, 2495
benomyl
gene encoding resistance is multidrug resistance gene, 648
chloramphenicol
colonization of gastrointestinal tracts of mice, 602
ciprofloxacin
colonization of gastrointestinal tracts of mice, 602
D0870
in vitro activity of the new antifungal triazole against isolates from oral cavities of patients infected with human immunodeficiency virus, 2553
fluconazole
improved medium for susceptibility testing, 45
fluconazole resistant
in vitro activity of itraconazole against isolates from oral cavities of human immunodeficiency virus patients, 1530
itraconazole
in vitro activity against fluconazole-susceptible and -resistant isolates from oral cavities of human immunodeficiency virus patients, 1530
ketoconazole
in vivo pharmacokinetics and pharmacodynamics in human stratum corneum, 90
meningitis
effects of antifungal therapy on inflammation, sterilization, and histology, 83
methotrexate
gene encoding resistance is multidrug resistance gene, 648
miconazole
in vivo pharmacokinetics and pharmacodynamics in human stratum corneum, 90
sulfamethoxazole-trimethoprim
colonization of gastrointestinal tracts of mice, 602
Candida krusei
liposomal amphotericin B (AmBisome)
efficacy of escalating doses for infection

in neutropenic mice, 2660
Candida lusitaniae
liposomal amphotericin B (AmBisome)
efficacy of escalating doses for infection in neutropenic mice, 2660
Candida spp.
alkyl glycerol ethers
synergism, 1523
amphotericin B
synergism, 1523
amphotericin B-liposomes
systemic infections in mice, 356
fluconazole
inhibition of adherence to platelets in vitro, 1460
susceptibilities and distribution of species recovered from blood culture isolates over 5-year period, 1422
platelet microbicidal protein
inhibition of adherence to platelets in vitro, 1460
Candidiasis
amphotericin B
treatment of murine infections by incorporation into egg lecithin-bile salt mixed micelles, 294
lanoconazole
therapeutic efficacy for experimental cutaneous infections in guinea pigs, 2204
Capreomycin
M. avium
pharmacokinetics, toxicity, and efficacy of liposomal form in disseminated mouse model, 2695
Carbapenems
letter to the editor
retain intermittent dosing, 159
S. pneumoniae
susceptibilities of penicillin-susceptible and -resistant isolates, 898
Cecropin B
enterobacterial outer membrane
ability to penetrate, 2498
Cefaclor
experimental intra-abdominal infections
optimal times above MIC, 1112
Cefazolin
high-performance liquid chromatography
penetration of and bactericidal activity within endothelial cells, 1059
Staphylococcus spp.
prophylactic efficacy in an experimental wound infection, 1325
Cefepime
ceftazidime
comparative evaluation for bacterial infections and sepsis syndrome, 415
Cefixime
urinary tract infections
studies with women comparing 3-day regimens, 1176
Cefotaxime
Y. pestis
treatment of murine infection, 481
Cefotetan
penetration
suction skin blister fluid and tissue homogenates in patients undergoing abdominal surgery, 2221
Cefoxitin
N. gonorrhoeae
susceptibility of isolates from women with pelvic inflammatory disease, 1688
Cefprozil
otitis media
penetration into middle ear fluid of patients, 2210
Ceftazidime
cefepime
comparative evaluation for bacterial infections and sepsis syndrome, 415
P. aeruginosa
killing during infusion in an in vitro pharmacokinetic model, 931
Ceftibuten
experimental intra-abdominal infections
optimal times above MIC, 1112
Ceftriaxone
B. burgdorferi
effectiveness of treatment in mice, 1567
enteric fever
comparison with ofloxacin for short-course treatment, 1716
Legionella spp.
in vitro extracellular and intracellular activities, 200
meningitis
concentrations in cerebrospinal fluid of children receiving dexamethasone therapy, 1209
N. gonorrhoeae
susceptibility of isolates from women with pelvic inflammatory disease, 1688
pharmacokinetics
patients with typhoid fever, 2415
plasma exchange in polyarteritis nodosa patients, 1519
S. pneumoniae
efficacy against penicillin-susceptible and -resistant strains in a mouse pneumonia model, 1953
sparfloxacin
comparative evaluation for treatment of experimental endocarditis due to penicillin-susceptible and -resistant streptococci, 2683
Y. pestis
treatment of murine infection, 481
Ceftriaxone-tazobactam
Legionella spp.
in vitro extracellular and intracellular activities, 200
Cefuroxime
high-performance liquid chromatography
penetration of and bactericidal activity within endothelial cells, 1059
Cefuroxime axetil
acute otitis media
comparison of suspensions for treatment of children, 315
Cephalexin
fosfomycin trometamol
comparative regimens for treatment of uncomplicated lower urinary tract infections in women, 2612
Cephalosporins
FK-037
pharmacokinetics and distribution in tissue, 2369
S. pneumoniae
susceptibilities of penicillin-susceptible and -resistant isolates, 898
SCE-2787
in vitro activity, 2896
Cephalothin
multivariate analysis
comparative evaluation, 184
Chemiluminescence
penicillin-binding proteins
study and purification, 973
Chlamydia
azithromycin
in vitro and in vivo activities, 2296
Chlamydia pneumoniae
clarithromycin
isolates from children with pneumonia, 1588
erythromycin
isolates from children with pneumonia, 1588
minireviews
antimicrobial susceptibility and therapy of infections, 1873
ofloxacin
in vitro activities, 1402
OPC-17116
in vitro activities, 1402
sparfloxacin
in vitro activities, 1402
protective effects in experimental pneumonia in leukopenic mice, 1757
Chlamydia trachomatis
amoxicillin-clavulanic acid
murine model of infection, 1937
azithromycin
murine model of infection, 1937
dirithromycin
in vitro activity, 2213
tetracyclines
murine model of infection, 1937
Chloramphenicol
B. burgdorferi
effectiveness of treatment in mice, 1567
C. albicans
colonization of gastrointestinal tracts of mice, 602
E. coli
active efflux in susceptible strains and multiple-antibiotic-resistant mutants, 542
typhoid fever
randomized comparison, 558
Chlorhexidine
biocidal action
annulment by nicotinic acid, 2458
Chlorofluoroquinolones
BAY y 3118
increased activity compared with those by other antimicrobial agents, 1671
Chloroquine
P. falciparum resistance
enhancement of susceptibility by neuronal monoamine reuptake inhibitors, 1419
Cilofungin
fluorescent probe
monitoring of antifungal drug-membrane interactions, 1378
Ciprofloxacin
A. calcoaceticus
serum bactericidal activities in 30 patients, 837
antagonism
$GABA_A$ receptor of rat vagus nerve, 1356
bioavailabilities

effect of enteral feeding with Ensure, 2101
bioavailability
effect of bismuth subsalicylate, 2187
bronchopneumonia
penetration into bronchial secretions from mechanically ventilated patients with nosocomial infections, 901
C. albicans
colonization of gastrointestinal tracts of mice, 602
cancer
susceptibilities of isolates from patients, 848
E. cloacae
serum bactericidal activities in 30 patients, 837
E. coli
serum bactericidal activities in 30 patients, 837
E. coli resistance
association between double mutation in *gyrA* gene of clinical isolates and MICs, 2477
high-performance liquid chromatography
penetration of and bactericidal activity within endothelial cells, 1059
imipenem-cilastatin
comparative evaluation for treatment of severe pneumonia in hospitalized patients, 547
letters to the editor
treatment of severe pneumonia, 1871
multivariate analysis
comparative evaluation, 184
P. aeruginosa
effects on in vitro adhesion and survival of strain AK1 on urinary catheters, 1490
investigation of penetration into biofilms, 2125
serum bactericidal activities in 30 patients, 837
penetration
human brain tissue, 1356
pharmacokinetics
strains of *S. pneumoniae*, *S. aureus*, and *P. aeruginosa* for which MICs are similar, 2730
pneumococci
antipneumococcal activities by time-kill methodology, 2065
rabbits
intestinal elimination, 757
S. aureus
serum bactericidal activities in 30 patients, 837
S. marcescens
in vivo activities in an experimental model of endocarditis, 883
Staphylococcus spp.
prophylactic efficacy in an experimental wound infection, 1325
temafloxacin
effects on T-lymphocyte function, 879
X. maltophilia
susceptibilities of 123 strains, 369
susceptibilities of 123 strains tested by five methods, 2317
Cirrhosis
quinolone resistance
rapid emergence in patients treated with norfloxacin to prevent spontaneous bacterial peritonitis, 340
Clarithromycin
C. pneumoniae
isolates from children with pneumonia, 1588
H. influenzae
evaluation of activities by using an in vitro pharmacodynamic model, 2003
H. pylori
tight binding to ribosomes, 1496
lepromatous leprosy
clinical trial, 515
M. avium
comparative activities against infection in beige mice, 1452
treatment and prevention of disseminated infection in beige mice, alone and in combination with dapsone, 2717
M. avium-M. intracellulare complex
liposome encapsulated, efficacies of, 523
M. intracellulare resistance
identifications of mutations in 23S rRNA gene, 381
M. kansasii
activities in beige mice, 1455
M. malmoense
activities in beige mice, 1455
M. simiae
activities in beige mice, 1455
activity in murine model of disseminated infection, alone and with ethambutol, 2676
M. xenopi
activities in beige mice, 1455
Oxyrase agar dilution
comparison with reference agar dilution method for susceptibility testing of anaerobes, 211
penetration
lung tissues from patients undergoing lung resection, 876
S. epidermidis
interaction between antibiotic and biofilms, 138
Clavulanic acid
β-lactamases
comparative activities, 767
Legionella spp.
in vitro extracellular and intracellular activities, 200
Clinafloxacin
E. faecium
activity against multidrug-resistant strains, 1668
X. maltophilia
susceptibilities of 123 strains, 369
Clindamycin
N. gonorrhoeae
susceptibility of isolates from women with pelvic inflammatory disease, 1688
T. gondii resistance
comparison of mutants, 31
Clostridium perfringens
macrolide-lincosamide-streptogramin B resistance
cloning and sequence analysis of *ermQ*, 1041
Coagulase-negative staphylococci
minireviews
antimicrobial susceptibility, 2231
susceptibility testing
minireview, 2231
Coagulase-negative streptococci
platelet microbicidal protein
in vitro resistance correlates with endocarditis source, 729
Colonization resistance
letter to the editor, 1693
minireview, 409
Combinatorial libraries
water-soluble synthetic peptides
identification of antimicrobial peptides, 2280
Coryneforms
quinolones
comparative activities of eight new agents, 1439
Co-trimoxazole
L. monocytogenes
inhibition of intracellular growth, 438
CP 99,219
cefoxitin
comparative activities against 489 anaerobes, 2471
ciprofloxacin
comparative activities against 489 anaerobes, 2471
grepafloxacin
comparative activities against 489 anaerobes, 2471
metronidazole
comparative activities against 489 anaerobes, 2471
piperacillin
comparative activities against 489 anaerobes, 2471
piperacillin-tazobactam
comparative activities against 489 anaerobes, 2471
Cryptococcosis
amphotericin B
treatment of murine infections by incorporation into egg lecithin-bile salt mixed micelles, 294
interleukin-12
efficacy alone and synergy with conventional antifungal therapy, 460
Cryptococcus neoformans
amphotericin B susceptibility
decrease of growth in presence of L-dopa, 2648
anthelmintic benzimidazoles
in vitro susceptibility, 378
fluconazole
sterol composition in presence and absence of drug, 2029
immunoglobulin G1 monoclonal antibody 2H1
therapeutic efficacy alone and in combination with amphotericin B, 580
macrophage colony-stimulating factor
effect of in vivo factor on fungistasis of bronchoalveolar and peritoneal macrophages, 2162
mouse-human immunoglobulin G1 chimeric antibodies
activities, 1507
Cryptococcus spp.
alkyl glycerol ethers
synergism, 1523

amphotericin B
synergism, 1523
Cryptosporidium parvum
paromomycin
evaluation of curative anticryptosporidial activity in a dexamethasone-treated rat model, 1681
Cryptosporidium spp.
dehydroepiandrosterone
studies with immunodeficient mouse model, 865
lasalocid
studies with immunodeficient mouse model, 865
sinefungin
studies with immunodeficient mouse model, 865
D-Cycloserine
transport mechanisms
use in human intestinal cell line Caco 2, 1239
Cyclothialidine
DNA gyrases
mechanism of inhibition, 1966
Cytomegalovirus
(*S*)-1-(3-hydroxy-2-phosphonylmethoxypropyl) cytosine
activity as single-bolus dose and continuous fusion in in vitro cell culture perfusion system, 2404
AIDS patients
effectiveness of induction treatment on quantitation of DNA, 38
foscarnet
effectiveness of induction treatment on quantitation of DNA, 38
pharmacokinetic parameters of maintenance doses and clinical outcome of retinitis, 1190
Cytotoxicity
bisbenzylisoquinolone alkaloids
KB cell line, 96

Dapsone
absorption
evaluation of effects of altered gastric pH with healthy volunteers, 2227
M. avium
treatment and prevention of disseminated infection in beige mice, alone and in combination with clarithromycin, 2717
P. carinii
levels in serum during once-weekly dosing, 1197
pharmacokinetics
safety of weekly doses for prevention of pneumocystis pneumonia, 1580
Dapsone plus pyrimethamine
pharmacokinetics
safety of weekly doses for prevention of pneumocystis pneumonia, 1580
Daptomycin
multivariate analysis
comparative evaluation, 184
nephrotoxicity
gentamicin induced; attenuation of, 1027
S. aureus
role of tolerance in treatment and prophylaxis of experimental endocarditis, 487
subcellular distribution
alone or with tobramycin in renal proximal tubular cells, 189
Dehydroepiandrosterone
Cryptosporidium spp.
studies with immunodeficient mouse model, 865
Dexamethasone
M. avium complex
low doses as adjunctive therapy for disseminated infections in AIDS patients, 2215
meningitis
effect on therapy of experimental penicillin- and cephalosporin-resistant strains, 1320
Dextranase
viridans streptococci
enhancement of antibiotic efficacy in experimental endocarditis, 953
2′,3′-Dideoxy-2′,3′-didehydrothymidine
human immunodeficiency virus
comparison of mitochondrial morphology, mitochondrial DNA content, and cell viability in cultured cells, 1824
2′,3′-Dideoxy-3′-thiacytidine
human immunodeficiency virus resistance
identification of a mutation in the IKKK motif of reverse transcriptase, 275
2′,3′-Dideoxycytidine
human immunodeficiency virus
comparison of mitochondrial morphology, mitochondrial DNA content, and cell viability in cultured cells, 1824
human immunodeficiency virus resistance
identification of a mutation in the IKKK motif of reverse transcriptase, 275
human immunodeficiency virus type 1
inhibition of replication in vitro with bisheteroarylpiperazine reverse transcriptase inhibitor, 288
resistance of reverse transcriptase conferred by mutation in codon 65, 282
Dideoxycytidine nucleosides
hepatitis B virus
influence of stereochemistry on antiviral activities and resistance profiles, 868
human immunodeficiency virus type 1
influence of stereochemistry on antiviral activities and resistance profiles, 868
Dideoxyinosine
pharmacokinetics
neonatal pigtailed macaques, 787
transplacental studies with pigtailed macaques, 781
2′,3′-Dideoxyinosine
antiretroviral activities
differential activities and intracellular metabolism in human cells, 1573
feline immunodeficiency virus
multiple-drug-resistant mutants, 861
human immunodeficiency virus
comparison of mitochondrial morphology, mitochondrial DNA content, and cell viability in cultured cells, 1824
human immunodeficiency virus type 1
effect of establishment of infection in cultured $CD8^+$ lymphocytes, 986
2′,3′-Dideoxynucleosides
human pluripotent progenitors
effects on proliferation and differentiation in liquid culture, 924
Dientamoeba fragilis
susceptibility testing
iodoquinol, 1157
metronidazole, 1157
paromomycin, 1157
tetracycline, 1157
Diethyldithiocarbamate
human immunodeficiency virus
decreased counts of blood neutrophils, monocytes, and platelets in infected children and young adults, 1644
Dihydroacridinediones
WR 243251
antimalarial activity, 1753
Dipyridamole
human immunodeficiency virus
effect on zidovudine pharmacokinetics and short-term tolerance in asymptomatic patients, 1036
Dirithromycin
C. trachomatis
in vitro activity, 2213
neutrophils
effect on degranulation, 1548
DNA gyrases
cyclothialidine
mechanism of inhibition, 1966
DO870
T. glabrata
treatment of disseminated infection, 1604
Doxycycline
arthritis
reduction of matrix metalloproteinase 8-neutrophil collegenase levels during long-term treatment, 400
B. burgdorferi
effectiveness of treatment in mice, 1567
N. gonorrhoeae
susceptibility of isolates from women with pelvic inflammatory disease, 1688
Y. pestis
treatment of murine infection, 481
Duck hepatitis B virus
penciclovir
in vitro activity, 719

Encephalitozoon cuniculi
microculture method
in vitro model to assess effect of antimicrobial agents, 2440
Endocarditis
RP 59500
in vivo activities and penetration of two components, 432
S. aureus
activities of teicoplanin, vancomycin, and gentamicin alone and in combination in an in vitro pharmacodynamic model, 2034
Endotoxins
minireview
clinical relevance of antibiotic-induced release, 1211

Entamoeba histolytica
bisbenzylisoquinolone alkaloids
in vitro activities, 96
Enterobacter cloacae
ciprofloxacin
serum bactericidal activities in 30 patients, 837
Enterobacter gergoviae
β-lactamases
clinical isolates resistant to ceftazidime in China, 2838
Enterobacteriaceae
meropenem
postantibiotic effect determined by five methods, 2583
Enterococcus casseliflavus
D-alanine–D-alanine ligases
analysis of genes encoding enzymes, 1788
glycopeptide resistant
emergence of strains with high-level resistance, 1675
Enterococcus faecalis
CX19
insertions of IS*256*-like element flanking chromosomal β-lactamase gene, 693
DU-6859a
comparative in vitro activity against gram-positive cocci, 611
gentamicin resistant
encoding of high-level resistance by Tn*924*, 1152
glycopeptide resistance
contribution of VanY D,D-carboxypeptidase by hydrolysis of peptidoglycan precursors, 1899
PCR
analysis and direct DNA sequencing of *gyrA* mutations associated with fluoroquinolone resistance, 2091
platelet microbicidal protein
in vitro resistance correlates with endocarditis source, 729
tetracycline resistance
presence of *Listeria* gene *tet*(S), 2330
vancomycin susceptibility
Tn*917* insertion mutants, 473
Enterococcus faecium
aminoglycoside resistant
outbreak of bacteremia in an adult oncology unit, 1363
ampicillin resistant
correlation with overproduction of low-affinity penicillin-binding protein, 1980
outbreak of bacteremia in an adult oncology unit, 1363
bacteremia
outbreak of vancomycin-, ampicillin-, and aminoglycoside-resistant strains in an adult oncology unit, 1363
β-lactams
synergy and resistance to synergy, 824
clinafloxacin
activity against multidrug-resistant strains, 1668
DU-6859a
comparative in vitro activity against gram-positive cocci, 611
glycopeptides
synergy and resistance to synergy, 824
multidrug resistant
activity of clinafloxacin, 1668
bactericidal activities of peptide antibiotics, 385
vancomycin resistant
bactericidal activities of antibiotics alone and in combination, 1225
outbreak of bacteremia in an adult oncology unit, 1363
Enterococcus flavescens
D-alanine–D-alanine ligases
analysis of genes encoding enzymes, 1788
Enterococcus gallinarum
glycopeptide resistant
emergence of strains with high-level resistance, 1675
Enterococcus spp.
fluoroquinolones
dissociated resistance among strains, 2095
gentamicin resistant
transferability and genetic relatedness, 1194
Epiroprim
T. gondii
activity alone and in combination with dapsone, 1803
Epstein-Barr virus
mycophenolic acid
effect on infection of human B lymphocytes, 126
thymidine kinase
substrate specificity, 2175
Errata
A. fumigatus
morphological effects of lipopeptides and correlation with activities against (1,3)-β-D-glucan synthase, 2516
acute otitis media
comparison of cefuroxime axetil and amoxicillin-clavulanate suspensions, 2516
amphotericin B
influence of lipoproteins on renal cytotoxicity and antifungal activity, 2230
CP-99,219
in vitro activity, 909
Y. pestis
assessment of a fluoroquinolone, β-lactams, aminoglycosides, and a cycline, 1694
Erythromycin
B. burgdorferi
effectiveness of treatment in mice, 1567
C. pneumoniae
isolates from children with pneumonia, 1588
H. pylori
tight binding to ribosomes, 1496
lipopolysaccharide-induced airway inflammation
inhibition of vascular leakage and neutrophil accumulation in rat trachea, 1641
Oxyrase agar dilution
comparison with reference agar dilution method for susceptibility testing of anaerobes, 211
pneumococci
antipneumococcal activities by time-kill methodology, 2065
Erythromycylamine
neutrophils
effect on degranulation, 1548
Escherichia coli
Aeromonas sobria AER 14M
cloning and expression of a cloxacillin-hydrolyzing enzyme and a cephalosporinase, 2078
β-lactamase inhibitor resistance
emergence of clinical isolates producing TEM-1 derivatives or an OXA-1 β-lactamase, 1085
β-lactamases
clinical isolates resistant to ceftazidime in China, 2838
β-lactams
effect of hyperproduction of TEM-1 β-lactamase, 494
susceptibility in vitro, 494
bioluminescent
nitric oxide-mediated killing, 2775
chloramphenicol
active efflux in susceptible strains and multiple-antibiotic-resistant mutants, 542
ciprofloxacin
in vitro activities against strains isolated from diarrheic lambs and kids, 2469
serum bactericidal activities in 30 patients, 837
ciprofloxacin resistant
association between double mutation in *gyrA* gene of clinical isolates and MICs, 2477
enoxacin
in vitro activities against strains isolated from diarrheic lambs and kids, 2469
enrofloxacin
in vitro activities against strains isolated from diarrheic lambs and kids, 2469
feline immunodeficiency virus
expression of viral reverse transcriptase, 388
fluoroquinolone resistant
characterization of mutants selected in vitro, 1284
emergence at a cancer center, 681
leukotriene inhibitors
L-651,392 controls inflammatory process in pyelonephritis, 1555
multiple antibiotic resistance
genetic relationship between *soxRS* and *mar* loci in promotion, 1773
penicillin-binding proteins
regulation by *rpoS* during transitions in growth states, 205
quinolones
comparison of inhibition of topoisomerase IV with DNA gyrase inhibition, 2623
sparfloxacin
in vitro activities against strains isolated from diarrheic lambs and kids, 2469
susceptibility testing
isoniazid and peroxides, 1829

Famciclovir
genital herpes

safety in patients, 2454
herpes zoster
safety in patients, 2454
FCE 22891
H. influenzae
efficacy and tolerability in patients with chronic obstructive pulmonary disease, 872
FDA approvals
anti-infective agents, biologics, and vaccines approved in 1993, 908
Feline immunodeficiency virus
3′-azido-3′-deoxythymidine
multiple-drug-resistant mutants, 861
2′,3′-dideoxyinosine
multiple-drug-resistant mutants, 861
E. coli
expression of viral reverse transcriptase, 388
Fialuridine
mitochondrial DNA
effect on replication in CEM cells and in human hepatoblastoma cells in culture, 1997
radioimmunoassays
initial assessment of pharmacokinetics after single oral doses to healthy volunteers, 2134
Fleroxacin
activity
experimental intra-abdominal abscesses, 252
clindamycin
activity in intra-abdominal abscesses, 252
metronidazole
activity in intra-abdominal abscesses, 252
pharmacokinetics
effects of a fat- and calcium-rich breakfast, 499
single doses to bacteremic patients, 1219
Fluconazole
C. albicans
improved medium for susceptibility testing, 45
C. neoformans
sterol composition in presence and absence of drug, 2029
Candida spp.
inhibition of adherence to platelets in vitro, 1460
susceptibilities, 1422
pharmacokinetics
validation of animal model used to measure drug concentrations in cerebrospinal fluid, 2111
Fluoroquinolones
A-80556
in vitro and in vivo evaluations, 1071
alkyl substituents
placement on C-7 piperazine ring, 130
chondrotoxicity
cytofluorometric analysis, 243
CP-99,219
in vitro activity, 2615
E. coli
characterization of mutants selected in vitro, 1284
emergence at a cancer center, 681
M. smegmatis
characterization of mutations involved in resistance, 1991
M. tuberculosis resistance
cloning and nucleotide sequences of *gyrA* and *gyrB* genes, 773
magnesium
effect of antibacterial properties, 2810
P. falciparum
in vitro activities, 1169
resistance
dissociated resistance among staphylococci and enterococci, 2095
S. aureus resistance
in vivo selection of a mutant during pefloxacin therapy, 1149
(6*S*)-6-Fluoroshikimic acid
E. coli
action on aromatic biosynthetic pathway, 403
Foscarnet
AIDS patients
effectiveness of induction treatment on quantitation of DNA, 38
cytomegalovirus
effectiveness of induction treatment on quantitation of DNA, 38
pharmacokinetic parameters of maintenance doses and clinical outcome of retinitis, 1190
human immunodeficiency virus
suppression of replication, 604
Fosfomycin trometamol
cephalexin
comparative regimens for treatment of uncomplicated lower urinary tract infections in women, 2612
Fusidic acid
leprosy
clinical trial, 1651

Ganciclovir
redox targeting
enhanced delivery to the brain, 817
Genaconazole
pharmacokinetics
healthy men after oral and intravenous administration, 2758
Genital herpes
famciclovir
safety in patients, 2454
Gentamicin
E. faecalis resistance
encoding of high-level resistance by Tn*924*, 1152
E. faecium
activities alone and in combinations, 1225
Enterococcus sp. resistance
transferability and genetic relatedness, 1194
human necrotizing pancreatitis
behavior, 830
mouse model
treatment in a new experimental model of foreign body infection, 2047
multivariate analysis
comparative evaluation, 184
N. gonorrhoeae
susceptibility of isolates from women with pelvic inflammatory disease, 1688
pig kidney cell membrane
fluidity during exposure, 2169
Y. pestis
treatment of murine infection, 481
GLQ223
patients with AIDS
safety, activity, and pharmacokinetics, 260
Glycopeptides
E. casseliflavus
emergence of strains with high-level resistance, 1675
E. gallinarum
emergence of strains with high-level resistance, 1675
Glycylcyclines
6-demethyl-6-desoxytetracycline
effectiveness against tetracycline-resistant gram-positive cocci, 2218
anaerobic bacteria
in vitro activities of *N,N*-dimethylglycyl-amido derivatives of minocycline and 6-demethyl-6-deoxytetracycline against 339 strains, 2513
CL 329,998
in vitro activities, 1096
in vitro activities against gram-positive bacteria, 534
CL 331,002
in vitro activities, 1096
in vitro activities against gram-positive bacteria, 534
M. hominis
susceptibility compared with that to older tetracyclines, 2628
M. pneumoniae
susceptibility compared with that to older tetracyclines, 2628
N,N-dimethylglycyl-amido derivative of minocycline
effectiveness against tetracycline-resistant gram-positive cocci, 2218
U. urealyticum
susceptibility compared with that to older tetracyclines, 2628
Gram-negative organisms
antibiotic action
ultrasonic enhancement, 2577
GV104326
in vitro activities of the tribactam, 2362
minireviews
transfer of antibiotic resistance genes, 1447
Gram-positive organisms
GV104326
in vitro activities of the tribactam, 2362
minireviews
transfer of antibiotic resistance genes, 1447
Group B streptococci
susceptibility testing
antibiotic resistance and penicillin tolerance in clinical isolates, 2183
Guanylhydrazones
P. carinii pneumonia
therapy of immunosuppressed rats, 2572

Haemophilus ducreyi
trimethoprim-sulfamethoxazole resistant emergence in Rwanda, 1647
Haemophilus influenzae
14-hydroxyclarithromycin
evaluation of activities by using an in vitro pharmacodynamic model, 2003

β-lactamase producing
experimental respiratory infections in neutropenic rats, 608
broth microdilution
in vitro activities of 12 orally administered antimicrobial agents against respiratory pathogens from U.S. medical centers in 1992 and 1993, 2419
clarithromycin
evaluation of activities by using an in vitro pharmacodynamic model, 2003
FCE 22891
efficacy and tolerability in patients with chronic obstructive pulmonary disease, 872
susceptibility testing
susceptibilities of Canadian isolates and characterization of their β-lactamases, 1678
Helicobacter pylori
14-(*R*)-hydroxy metabolite
tight binding to ribosomes, 1496
clarithromycin
tight binding to ribosomes, 1496
erythromycin
tight binding to ribosomes, 1496
metronidazole
standardization of disk diffusion test and clinical significance for susceptibility testing, 2357
metronidazole resistance
in vitro studies on stability and development, 360
Hepatitis B virus
alpha interferon
inhibition in tissue culture, 2921
β-2′,3′-dideoxycytidine analogs
pure nucleoside enantiomers as selective inhibitors in vitro, 2172
(−) *cis*-5-fluoro-1-[2-(hydroxymethyl)-1,3-oxathiolan-5-yl]cytosine
evaluation with mice, 616
dideoxycytidine nucleosides
influence of stereochemistry on antiviral activities and resistance profiles, 868
duck
inhibitory effects of acyclic nucleoside phosphonates on infections in tissue culture, 2180
(+) *cis*-5-fluoro-1-[2-(hydroxymethyl)-1,3-oxathiolan-5-yl]cytosine
intercellular metabolism, 1230
(−) *cis*-5-fluoro-1-[2-(hydroxymethyl)-1,3-oxathiolan-5-yl]cytosine
intercellular metabolism, 1230
human
inhibitory effects of acyclic nucleoside phosphonates on infections in tissue culture, 2180
oxetanocin G
effect on DNA synthesis by virions, 707
Herpes simplex virus
acyclovir
correlation between response and susceptibility result for isolates from human immunodeficiency virus-infected patients, 1246
regulation of thymidine kinase in cells treated with synergistic antiviral combination, 853
alpha interferon
regulation of thymidine kinase in cells treated with synergistic antiviral combination, 853
foscarnet
correlation between response and susceptibility result for isolates from human immunodeficiency virus-infected patients, 1246
imiquimod
posttherapy suppression of genital herpes simplex virus recurrences and enhancement of T-cell memory in guinea pigs, 2059
Herpes simplex virus type 1
immediate-early mRNAs
synergistic antiviral activities of oligonucleoside methylphosphonates, 675
Herpes simplex virus type 2
HPMPC
comparative evaluation with cHPMPC, 2387
Herpes zoster
famciclovir
safety in patients, 2454
Herpesvirus
2-amino-7-[(1,3-dihydroxy-2-propoxy) methyl]purine
potent and selective inhibition of replication, 2710
High-pressure liquid chromatography
pefloxacin
determination of concentration in mesenteric lymph nodes, 632
Himastatin
fatty acid sodium salts
inhibition of antibacterial activity of the antitumor antibiotic, 2633
Human cytomegalovirus
alkenyl guanine analogs
inhibition in culture, 2889
Human hepatitis B virus
(2′*R*,5′*S*)-*cis*-5-fluoro-1-[2-(hydroxymethyl)-1,3-oxathiolan-5-yl] cytosine
pharmacokinetics, oral bioavailability, and metabolism in mice and cynomolgus monkeys, 2722
Human immunodeficiency virus
azoles
resistant *C. albicans* strains isolated from patients, 2495
C. albicans
azole-resistant strains isolated from patients, 2495
in vitro activity of itraconazole against fluconazole-susceptible and -resistant isolates from oral cavities, 1530
5-chloro-2′,3′-dideoxy-3′-fluorouridine
improved metabolic and toxicological profile, 1590
(2′*R*,5′*S*)-*cis*-5-fluoro-1-[2-(hydroxymethyl)-1,3-oxathiolan-5-yl] cytosine
pharmacokinetics, oral bioavailability, and metabolism in mice and cynomolgus monkeys, 2722
diethyldithiocarbamate
decreased counts of blood neutrophils, monocytes, and platelets in infected children and young adults, 1644
dipyridamole
effect on zidovudine pharmacokinetics and short-term tolerance in asymptomatic patients, 1036
foscarnet
suppression of replication, 604
JM3100
potent and selective inhibition, 668
levofloxacin
pharmacokinetics and safety in patients, 799
pharmacokinetics
zidovudine phosphorylation in peripheral blood mononuclear cells of patients, 1541
phosphatidylazidothymidine
uptake in mouse lymphoid tissues and antiviral activities, 2792
phosphatidyl-ddC
uptake in mouse lymphoid tissues and antiviral activities, 2792
protease
nonpeptide cyclic urea, DMP 323, blocks intracellular processing of *gag* polyprotein, 1635
potency and selectivity of inhibition by small nonpeptide cyclic urea, DMP 323, 1628
protease inhibitor KNI-272
protein binding and alteration of antiretroviral activity, 1107
reverse transcription
preferential incorporation of nucleoside analogs after template switching, 1008
T cells
inhibition of α-glucosidase I of glycoprotein-processing enzymes of 6-*O*-butanoyl castanospermine (MDL 28,574) and its consequences, 1780
Tat antagonist
combinative interactions with reverse transcriptase inhibitors and a protease inhibitor, 348
valaciclovir
phase I trial in patients with advanced disease, 1534
Human immunodeficiency virus type 1
acyclic 6-phenylselenenyl- and 6-phenylthiopyrimidines
in vitro resistance, 2409
3′-azido-3′-deoxythymidine
effect of establishment of infection in cultured $CD8^+$ lymphocytes, 986
inhibition of replication in vitro with bisheteroarylpiperazine reverse transcriptase inhibitor, 288
combination chemotherapy
alternating versus continuous drug regimens, 656
2′,3′-didehydro-2′,3′-dideoxythymidine
novel mutation in reverse transcriptase confers resistance in cell culture, 1428
2′,3′-didehydro-3′-deoxythymidine
effect in hollow-fiber pharmacodynamic model system, 1386
2′,3′-dideoxycytidine
inhibition of replication in vitro with bisheteroarylpiperazine reverse transcriptase inhibitor, 288
dideoxycytidine nucleosides
influence of stereochemistry on antiviral activities and resistance profiles,

868
2′,3′-dideoxyinosine
effect of establishment of infection in cultured CD8+ lymphocytes, 986
L enantiomer of 2′,3′-dideoxycytidine
in vitro activities and those of its 5-fluoro derivative, 1292
MKC-442
preclinical evaluation, 688
myeloperoxidase
virucidal effect on T cells, 969
protease inhibitors
effects on particle maturation and constitutive production of nonenveloped particles by a mammalian cell line, 2430
pyridoxal 5′-phosphate
inhibition of in vitro infection and gp120-CD4 interaction, 2483
receptor antagonists
assays for detection and characterization, 2008
recombinant virus assay
assessment of drug susceptibility isolates, 23
reverse transcriptase
antiviral drug resistance mutations, 268
resistance to 2′,3′-dideoxycytidine conferred by mutation in codon 65, 282
inhibition by 5′-triphosphate β enantiomers of cytidine analogs, 2300
subunit specificity of mutations that confer resistance to nonnucleoside inhibitors in drug resistance, 1909
reverse transcriptase inhibitors
susceptibilities of enzyme and viral variants expressing multiple resistance-engendering amino acid substitutions, 1404
SDZ NIM 811
inhibition of replication, 1763
surface glycoprotein
influence of host cell type and V3 loop on susceptibility to polyanion compounds, 2910
tetrahydroimidazo[4,5,1-*jk*][1,4]-benzodiazepen-2(1*H*)-one and -thione derivatives
inhibition of replication, 2863
U-75875
activities in human brain cell cultures, 2465
U-90152
activities in human brain cell cultures, 2465
viral genomic RNA
reverse transcription capabilities, 2929
zidovudine resistant
susceptibilities of variants to inhibition by acyclic nucleoside phosphonates, 1683
14-Hydroxyclarithromycin
H. influenzae
evaluation of activities by using an in vitro pharmacodynamic model, 2003

ICI D1694
P. falciparum
susceptibility, 476
Imidazole
P. carinii
resistance, 1859
Imipenem
E. faecium
activities alone and in combinations, 1225
letters to the editor
treatment of severe pneumonia, 1871
multivariate analysis
comparative evaluation, 184
P. aeruginosa
pharmacodynamic effects of subinhibitory concentrations in an in vitro dynamic model, 1416
peritonitis
comparison of monotherapy with therapy with imipenem plus netilmicin for severe infections in nonneutropenic patients, 1309
pneumonia
comparison of monotherapy with therapy with imipenem plus netilmicin for severe infections in nonneutropenic patients, 1309
sepsis
comparison of monotherapy with therapy with imipenem plus netilmicin for severe infections in nonneutropenic patients, 1309
Imipenem-cilastatin
ciprofloxacin
comparative evaluation for treatment of severe pneumonia in hospitalized patients, 547
human necrotizing pancreatitis
behavior, 830
Imiquimod
herpes simplex virus
posttherapy suppression of genital herpes simplex virus recurrences and enhancement of T-cell memory in guinea pigs, 2059
Influenza A virus
2′-deoxy-2′-fluororibosides
efficacy in ferrets, 1864
LY217896
prevention of infection and illness in humans, 1178
sulfonic acid polymers
in vitro and in vivo inhibition, 256
Influenza B virus
2′-deoxy-2′-fluororibosides
efficacy in ferrets, 1864
Influenza virus
cap-dependent endonuclease
inhibition by 2 4-dioxobutanoic acid compounds, 2827
GG167
inhibition in mice consistent with extracellular activity of viral neuraminidase, 2270
Interleukin-12
cryptococcosis
efficacy alone and synergy with conventional antifungal therapy, 460
Iontophoresis
antimicrobial chlorine-based substances
quantification, qualification, and microbial killing efficiencies, 2768
Isoniazid
bioavailability
effect of antacids in didanosine tablet, 894
Itraconazole
amphotericin B
comparison for experimental pulmonary aspergillosis, 1303
C. albicans
in vitro activity against fluconazole-susceptible and -resistant isolates from human immunodeficiency virus patients, 1530
cyclosporin A
interaction, 1303
pharmacokinetics
bioassay using hydroxyitraconazole standards, 1561
correlation between therapeutic response and concentrations in plasma, 1303

JM3100
human immunodeficiency virus
potent and selective inhibition, 668

Ketoconazole
C. albicans
in vivo pharmacokinetics and pharmacodynamics in human stratum corneum, 90
L. mexicana
effect on lethal action of amphotericin B on promastigotes, 1079
sucralfate
in vitro analysis of interaction, 319
in vivo interaction in healthy volunteers, 326
Klebsiella pneumoniae
β-lactam–β-lactamase inhibitor combination
in vivo efficacies against TEM-26-producing strain, 2663
β-lactamases
gene sequence and biochemical characterization of FOX-1, 2150
identification of extended-spectrum TEM-12 and TEM-10 in single isolate, 761
bla_{LAT-1}
nucleotide sequence of plasmid-mediated cephalosporinase gene, 2207
ceftazidime resistant
TEM-26 responsible for major outbreak, 392
muramyl tripeptide phosphatidylethanolamide
treatment of septicemia in normal and leukopenic mice, 147
piperacillin-tazobactam
different ratios for treatment of experimental meningitis, 195
TEM-26
responsibility for major outbreak of ceftazidime-resistant infections, 392
tumor necrosis factor
influence of antimicrobial therapy on kinetics in experimental endocarditis, 1017

Lanoconazole
candidiasis
therapeutic efficacy for experimental cutaneous infections in guinea pigs, 2204

Lasalocid
Cryptosporidium spp.
studies with immunodeficient mouse model, 865
Legionella pneumophila
azithromycin
pharmacokinetics and intracellular concentrations in infected and uninfected guinea pigs, 217
Legionella spp.
ceftriaxone
in vitro extracellular and intracellular activities, 200
ceftriaxone-tazobactam
in vitro extracellular and intracellular activities, 200
clavulanic acid
in vitro extracellular and intracellular activities, 200
piperacillin
comparative activities against clinical isolates, 144
in vitro extracellular and intracellular activities, 200
piperacillin-tazobactam
in vitro extracellular and intracellular activities, 200
tazobactam
comparative activities against clinical isolates, 144
Leishmania donovani
licochalcone A
activity in hamsters, 1339
Leishmania major
licochalcone A
activity in mice, 1339
Leishmania mexicana
ketoconazole
effect on lethal action of amphotericin B on promastigotes, 1079
letters to the editor
structure-function analysis of antimicrotubule dinitroanilines, 1692
Leprosy
fusidic acid
clinical trial, 1651
multibacillary
international randomized study with long-term follow-up of single versus combination chemotherapy, 2249
Letters to the editor
carbapenems
retain intermittent dosing, 159
ciprofloxacin
treatment of severe pneumonia, 1871
imipenem
treatment of severe pneumonia, 1871
L. mexicana
structure-function analysis of antimicrotubule dinitroanilines, 1692
M. avium
strains resistant to clarithromycin and azithromycin, 635
P. cepacia
analysis of *penA* gene, 407
titles
new policy, 160
Leukemia
roxithromycin
randomized trial in patients, 465
Levofloxacin
cancer
susceptibilities of isolates from patients, 848
human immunodeficiency virus
pharmacokinetics and safety in patients, 799
M. tuberculosis
inhibitory and bactericidal activities in vitro and in human macrophages, 1161
pharmacokinetics
safety in patients with human immunodeficiency virus, 799
tuberculosis
activity in a murine model, 1476
Licochalcone A
L. donovani
antileishmanial activity in hamsters, 1339
L. major
antileishmanial activity in mice, 1339
P. falciparum
inhibition of in vitro growth, 1470
P. yoelii
protection of mice, 1470
Listeria monocytogenes
amoxicillin
inhibition of intracellular growth, 438
Bay Y 3118
eradication from infected mice and L929 cells, 1501
co-trimoxazole
inhibition of intracellular growth, 438
rifampin
inhibition of intracellular growth, 438
sparfloxacin
inhibition of intracellular growth, 438
temafloxacin
inhibition of intracellular growth, 438
Listeria spp.
susceptibility testing
activities of gentamicin, erythromycin, streptomycin, chloramphenicol, ampicillin, sulfamethazine, cephalothin, penicillin G, and tetracycline, 1655
Lomefloxacin
trimethoprim-sulfamethoxazole
comparison for treatment of complicated urinary tract infections, 1368
Lovastatin
B. divergens
inhibition of in vitro development in human erythrocytes, 1144
P. falciparum
inhibition of in vitro development in human erythrocytes, 1144

Macrolides
Campylobacter spp.
evolution of susceptibilities, 1879
clarithromycin
immunomodulatory effects on human T-lymphocyte function in vitro, 2643
erythromycin
protection against endotoxin-induced vascular leakage and neutrophil accumulation in rat trachea, 1641
josamycin
immunomodulatory effects on human T-lymphocyte function in vitro, 2643
M. pneumoniae
in vitro and in vivo activities, 790
midecamycin acetate
immunomodulatory effects on human T-lymphocyte function in vitro, 2643
roxithromycin
protection against endotoxin-induced vascular leakage and neutrophil accumulation in rat trachea, 1641
Macrophage colony-stimulating factor
bronchoalveolar macrophages
effect of in vivo factor on fungistasis of macrophages against *C. neoformans*, 2162
effect on anticryptococcal activity and synergy with fluconazole for killing, 2158
peritoneal macrophages
effect of in vivo factor on fungistasis of macrophages against *C. neoformans*, 2162
Malaria
ajoene
in vivo activity against infections in rodents, 337
Melarsamine hydrochloride (Cymelarsan)
trypanosomiasis
properties in aqueous solution, 1298
Meningitis
C. albicans
effects of antifungal therapy on inflammation, sterilization, and histology, 83
ceftriaxone
concentrations in cerebrospinal fluid of children receiving dexamethasone therapy, 1209
pneumococcal
effect on therapy of experimental penicillin- and cephalosporin-resistant strains, 1320
S. pneumoniae
antibiotic therapy and acute outcome with strains intermediately susceptible to broad-spectrum cephalosporins, 918
Meropenem
Enterobacteriaceae
postantibiotic effect determined by five methods, 2583
pharmacokinetics
patients with intra-abdominal infections, 151
Methicillin
mouse model
treatment in a new experimental model of foreign body infection, 2047
S. aureus resistance
mechanisms of heteroresistance, 724
production of A and C variants of staphylococcal β-lactamase, 1649
reassessment of number of auxiliary genes essential for expression of high-level resistance, 2590
S. epidermidis resistance
lack of *mecA* transcription in slime-negative phase variants, 1251
Methotrexate
C. albicans
gene encoding resistance is multidrug resistance gene, 648

Metronidazole
Bacteroides spp.
in vitro activities of drug and its hydroxy metabolite, 2106
H. pylori
standardization of disk diffusion test and clinical significance for susceptibility testing, 2357
H. pylori resistance
in vitro studies on stability and development, 360
human necrotizing pancreatitis
behavior, 830
M. tuberculosis
bactericidal activity toward dormant cells, 2059
Mezlocillin
human necrotizing pancreatitis
behavior, 830
Miconazole
C. albicans
in vivo pharmacokinetics and pharmacodynamics in human stratum corneum, 90
Minireviews
aminoglycoside ototoxicity
proposed molecular and cellular mechanism, 2517
antibiotic resistance genes
transfer between gram-positive and -negative bacteria, 1447
aspergillosis
strategies in prevention for immunosuppressed or neutropenic patients, 911
C. pneumoniae
antimicrobial susceptibility and therapy of infections, 1873
central nervous system-immune system
effect and immunomodulatory consequences of immune system mediators on the brain, 7
psychoneuroendocrinology of stress and its immune consequences, 1
coagulase-negative staphylococci
antimicrobial susceptibility, 2231
colonization resistance, 409
endotoxin release
clinical relevance of that induced by antibiotics, 1211
pharmaceutical industry
how an antibiotic drug is brought to market in the United States, 2679
quinolones
gram-positive bacteria, 163
serum therapy
animal models of infection and passive antibody therapy, 1695
tetracyclines
analogs whose primary target is not the bacterial ribosome, 637
Minocycline
high-performance liquid chromatography
penetration of and bactericidal activity within endothelial cells, 1059
S. aureus
comparison with vancomycin for treatment of oxacillin-resistant experimental endocarditis, 1515
MKC-442
human immunodeficiency virus type 1
preclinical evaluation, 688
Moraxella catarrhalis
broth microdilution
in vitro activities of 12 orally administered antimicrobial agents against respiratory pathogens from U.S. medical centers in 1992 and 1993, 2419
Multivariate analysis
cephalothin
comparative evaluation, 184
ciprofloxacin
comparative evaluation, 184
daptomycin
comparative evaluation, 184
gentamicin
comparative evaluation, 184
imipenem
comparative evaluation, 184
rifampin
comparative evaluation, 184
teicoplanin
comparative evaluation, 184
vancomycin
comparative evaluation, 184
Muramyl tripeptide phosphatidylethanolamide
K. pneumoniae
treatment of septicemia in normal and leukopenic mice, 147
Murine cryptococcosis
amphotericin B
in vitro renal toxicity and in vivo therapeutic efficacy associated with intralipid, 177
Murine cytomegalovirus
nucleotide analogs
analogs related to acyclovir and ganciclovir are effective against infection in BALB/c and severe combined immunodeficient mice, 2165
Murine leukemia virus
zidovudine
impact of dosing schedule, 628
Mycobacterium avium
azithromycin
comparative activities against infection in beige mice, 1452
intermittent dosing for treatment of beige mice, 1721
capreomycin
pharmacokinetics, toxicity, and efficacy of liposomal form in disseminated mouse model, 2695
clarithromycin
comparative activities against infection in beige mice, 1452
effects alone and in combination with rifabutin on intracellular and extracellular replication, 2738
treatment and prevention of disseminated infection in beige mice, alone and in combination with dapsone, 2717
dapsone
treatment and prevention of disseminated infection in beige mice, alone and in combination with clarithromycin, 2717
KRM 1648
activity alone or in combination with ethambutol or clarithromycin in beige mouse model of disseminated infection, 1844
letter to the editor
strains resistant to clarithromycin and azithromycin, 635
radiometric drug-inhibitor combination techniques
definition of potential drug targets, 2287
rifabutin
effects alone and in combination with rifabutin on intracellular and extracellular replication, 2738
Mycobacterium avium complex
azithromycin
inhibition of binding to HT-29 intestinal mucosal cells, 1200
beige mouse model
effectiveness of various antimicrobial agents, 2521
dexamethasone
low doses as adjunctive therapy for disseminated infections in AIDS patients, 2215
ethambutol
activity in vitro and in macrophages, 1838
KRM 1648
activity in vitro and in macrophages, 1838
paromomycin
in vivo activity against susceptible and multidrug-resistant strains, 170
rifabutin
comparative in vivo activities, 234
inhibition of binding to HT-29 intestinal mucosal cells, 1200
rifapentine
comparative in vivo activities, 234
roxithromycin
activities alone and in combination with other drugs, 1433
sparfloxacin
inhibition of binding to HT-29 intestinal mucosal cells, 1200
Mycobacterium avium-M. intracellulare complex
clarithromycin
liposome encapsulated, efficacies of, 523
ofloxacin
liposome encapsulated, efficacies of, 523
Mycobacterium fortuitum
β-lactamases
use of chromosomal class A to study substrates and inhibitory β-lactam compounds, 1608
Mycobacterium intracellulare
clarithromycin resistant
identifications of mutations in 23S rRNA gene, 381
Mycobacterium kansasii
azithromycin
activities in beige mice, 1455
clarithromycin
activities in beige mice, 1455
Mycobacterium leprae
2,2′-bipyridyl analogs
in vitro activities, 2908
ofloxacin
alone and in combination with dapsone plus clofazimine, 662
sparfloxacin
clinical trial for lepromatous leprosy, 61

Mycobacterium malmoense
azithromycin
activities in beige mice, 1455
clarithromycin
activities in beige mice, 1455
Mycobacterium simiae
azithromycin
activities in beige mice, 1455
clarithromycin
activities in beige mice, 1455
activity in murine model of disseminated infection, 2676
clarithromycin plus ethambutol
activity in murine model of disseminated infection, 2676
ofloxacin
activity in murine model of disseminated infection, 2676
Mycobacterium smegmatis
fluoroquinolone resistant
characterization of mutations involved in resistance, 1991
susceptibility testing
isoniazid and peroxides, 1829
Mycobacterium spp.
aminocyclitol
in vitro susceptibilities, 134
aminoglycosides
in vitro susceptibilities, 134
quinolones
in vitro susceptibilities, 134
rifampin resistant
characterization in pathogenic strains, 2380
RNA amplification
assessment of viability, 1959
streptomycin resistance
role of permeability barriers, 238
tetracycline resistance
acquisition of determinants, 1408
Mycobacterium tuberculosis
fluoroquinolone resistant
cloning and nucleotide sequences of *gyrA* and *gyrB* genes, 773
KRM-1648
activity of the new benzoxazinorifamycin in a murine model, 2245
levofloxacin
inhibitory and bactericidal activities in vitro and in human macrophages, 1161
metronidazole
bactericidal activity toward dormant cells, 2054
paromomycin
in vivo activity against susceptible and multidrug-resistant strains, 170
PCR
rpoB, 805
streptomycin resistance
mapping of mutations, 228
Mycobacterium xenopi
azithromycin
activities in beige mice, 1455
clarithromycin
activities in beige mice, 1455
Mycophenolic acid
Epstein-Barr virus
effect on infection of human B lymphocytes, 126
Mycoplasma hominis
glycylcyclines
susceptibility compared with that to older tetracyclines, 2628
Mycoplasma pneumoniae
glycylcyclines
susceptibility compared with that to older tetracyclines, 2628
macrolides
in vitro and in vivo activities, 790
sparfloxacin
in vitro and in vivo activities, 738
Myeloperoxidase
human immunodeficiency virus type 1
virucidal effect on T cells, 969

Naegleria fowleri
amoebicins
characterization and biological activity against, 1314
Nafcillin
high-performance liquid chromatography
penetration of and bactericidal activity within endothelial cells, 1059
Naftifine
human polymorphonuclear leukocytes
effects of allylamine antifungal drugs on selected functions, 2605
Neisseria gonorrhoeae
azithromycin
susceptibility of isolates from women with pelvic inflammatory disease, 1688
cefoxitin
susceptibility of isolates from women with pelvic inflammatory disease, 1688
ceftriaxone
susceptibility of isolates from women with pelvic inflammatory disease, 1688
clindamycin
susceptibility of isolates from women with pelvic inflammatory disease, 1688
doxycycline
susceptibility of isolates from women with pelvic inflammatory disease, 1688
gentamicin
susceptibility of isolates from women with pelvic inflammatory disease, 1688
quinolone resistant
in vitro resistance in penicillinase-producing strains in Hawaii, 2200
susceptibility testing
persistence of strains with decreased susceptibilities to ciprofloxacin and ofloxacin in Cleveland, Ohio, 2194
strains isolated in Surbaya, Indonesia, 2530
strains representing five distinct resistance phenotypes, 155
Neisseria meningitidis
rifampin resistant
molecular characterization, 1256
susceptibility testing
decreased susceptibility to penicillin G and Tet M plasmids in genital and anorectal isolates, 1661
Nephrotoxicity
daptomycin
gentamicin induced; attenuation of, 1027
tobramycin
protection by ceftriaxone, 750
Neurotoxicity
artemisinin analogs
in vitro studies, 1813
5-Nitroimidazole
Bacteroides spp.
nucleotide sequence analysis, 1047
Nocardia spp.
erythromycin
inactivation, 2197
midecamycin
inactivation, 2197
rokitamycin
inactivation, 2197
Norfloxacin
P. aeruginosa
effects on in vitro adhesion and survival of strain AK1 on urinary catheters, 1490
sucralfate
effect on absorption, 248

Ofloxacin
bioavailabilities
effect of enteral feeding with Ensure, 2101
C. pneumoniae
in vitro activities, 1402
cancer
susceptibilities of isolates from patients, 848
enteric fever
comparison with ceftriaxone for short-course treatment, 1716
M. avium-M. intracellulare complex
liposome encapsulated, efficacies of, 523
M. leprae
alone and in combination with dapsone plus clofazimine, 662
M. simiae
activity in murine model of disseminated infection, 2676
oral absorption
effects of administration with aluminum, 2510
P. aeruginosa
effects on in vitro adhesion and survival of strain AK1 on urinary catheters, 1490
pharmacokinetics
kinetics of ofloxacin and metabolites after single intravenous infusion, 1849
respiratory tract infections
effective monitoring of concentrations in saliva of patients, 1140
Staphylococcus spp.
prophylactic efficacy in an experimental wound infection, 1325
sucralfate
effect on absorption, 248
urinary tract infections
studies with women comparing 3-day regimens, 1176
X. maltophilia
susceptibilities of 123 strains, 369
Y. pestis
treatment of murine infection, 481
OPC-17116
C. pneumoniae
in vitro activities, 1402
respiratory tract infections
evaluation against important pathogens,

2340
Oral penems
SY5555
in vivo antibacterial stability and β-lactamase stability, 1974
Otitis media
cefprozil
penetration into middle ear fluid of patients, 2210
Outer membrane permeabilization
antimicrobial cationic peptides
improvement, along with that of lipopolysaccharide-binding activity, by C-terminal modification, 2311
Oxacillin
S. aureus resistance
minocycline versus vancomycin for treatment of experimental endocarditis, 1515
mupirocin resistance among consecutive isolates at a university hospital, 1664
S. pneumoniae resistance
genetics of oxacillin resistance in clinical isolates, 49
Oxetanocin G
hepatitis B virus
effect on DNA synthesis by virions, 707
Oxyrase agar dilution
azithromycin
comparison with reference agar dilution method for susceptibility testing of anaerobes, 211
clarithromycin
comparison with reference agar dilution method for susceptibility testing of anaerobes, 211
erythromycin
comparison with reference agar dilution method for susceptibility testing of anaerobes, 211
roxithromycin
comparison with reference agar dilution method for susceptibility testing of anaerobes, 211

Paromomycin
C. parvum
evaluation of curative anticryptosporidial activity in a dexamethasone-treated rat model, 1681
M. avium complex
in vivo activity against susceptible and multidrug-resistant strains, 170
M. tuberculosis
in vivo activity against susceptible and multidrug-resistant strains, 170
Pasteurella haemolytica
equilibrium dialysis
effects of localized infection on erythromycin-binding properties of bovine alpha-1-acid glycoprotein, albumin, serum, and tissue chamber fluids, 2392
PCR
Acinetobacter spp.
detection of *aac(6')-I* gene in amikacin-resistant strains, 2925
E. faecalis
analysis and direct DNA sequencing of *gyrA* mutations associated with fluoroquinolone resistance, 2091
M. tuberculosis
rpoB, 805
S. dysenteriae
detection of 4-quinolone resistance mutation in *gyrA* gene of type 1, 2488
PD 131628
X. maltophilia
susceptibilities of 123 strains, 369
PD 138312
X. maltophilia
susceptibilities of 123 strains, 369
PD 140248
X. maltophilia
susceptibilities of 123 strains, 369
Pefloxacin
absorption
effect of antacid containing magnesium and aluminum in study with humans, 1129
high-pressure liquid chromatography
determination of concentration in mesenteric lymph nodes, 632
human necrotizing pancreatitis
behavior, 830
mechanism of renal elimination
effect of antacid containing magnesium and aluminum in study with humans, 1129
metabolism
effect of antacid containing magnesium and aluminum in study with humans, 1129
S. marcescens
in vivo activities in an experimental model of endocarditis, 883
Penciclovir
duck hepatitis B virus
in vitro activity, 719
Penicillin
S. pneumoniae resistance
genetics of oxacillin resistance in clinical isolates, 49
in vitro selective antibiotic concentrations of β-lactams, 122
treatment of experimental endocarditis, 1103
Penicillin G
B. burgdorferi
effectiveness of treatment in mice, 1567
pneumococci
antipneumococcal activities by time-kill methodology, 2065
Penicillin-binding proteins
β-lactams
study and purification, 973
chemiluminescence
study and purification, 973
digoxigenin-ampicillin conjugate
detection by chemiluminescence, 330
E. coli
regulation by *rpoS* during transitions in growth states, 205
E. faecium
correlation of overproduction of low-affinity protein with ampicillin resistance, 1980
Pentamidine isethionate
S. cerevisiae
effects, 1123
Pharmaceutical industry
minireviews
how an antibiotic drug is brought to market in the United States, 2679
Pharmacodynamics
piperacillin
piperacillin-resistant and -susceptible organisms in an in vitro model of infection, 2351
piperacillin-tazobactam
piperacillin-resistant and -susceptible organisms in an in vitro model of infection, 2351
S. aureus
levofloxacin, ofloxacin, and ciprofloxacin, alone and in combination with rifampin, in methicillin-susceptible and -resistant strains, 2702
Pharmacokinetics
amikacin
comparison of two therapeutic regimens for *P. aeruginosa*, 981
aminoglycosides
comparison with Asian, Hispanic, and Caucasian patients by using population pharmacokinetic methods, 2073
effect of fever and changes in glomerular filtration rate, 620
amoxicillin
simulation in humans for prevention of streptococcal endocarditis in rats, 2846
amphotericin B
safety of unilamellar liposomal formulation in rabbits, 713
azithromycin
L. pneumophila in guinea pigs, 217
ceftazidime
killing of *P. aeruginosa*, 931
ceftriaxone
patients with typhoid fever, 2415
plasma exchange in polyarteritis nodosa patients, 1519
ciprofloxacin
strains of *S. pneumoniae*, *S. aureus*, and *P. aeruginosa* for which MICs are similar, 2730
(2'*R*,5'*S*)-*cis*-5-fluoro-1-[2-(hydroxymethyl)-1,3-oxathiolan-5-yl] cytosine
oral bioavailability and metabolism in mice and cynomolgus monkeys, 2722
dapsone
safety of weekly doses for prevention of pneumocystis pneumonia, 1580
dapsone plus pyrimethamine
safety of weekly doses for prevention of pneumocystis pneumonia, 1580
dideoxyinosine
neonatal pigtailed macaques, 787
transplacental studies with pigtailed macaques, 781
fialuridine
initial assessment by radioimmunoassay after single oral doses to healthy volunteers, 2134
FK-037
pharmacokinetics and distribution in tissue of the new cephalosporin, 2369
fleroxacin
effects of a fat- and calcium-rich breakfast, 499
single doses to bacteremic patients, 1219
fluconazole

validation of animal model used to measure drug concentrations in cerebrospinal fluid, 2111
foscarnet
clinical outcome of cytomegalovirus retinitis, 1190
genaconazole
healthy men after oral and intravenous administration, 2758
GLQ223
safety, activity, and pharmacokinetics in patients with AIDS and AIDS-related complex, 260
human immunodeficiency virus
zidovudine phosphorylation in peripheral blood mononuclear cells of patients, 1541
itraconazole
bioassay using hydroxyitraconazole standards, 1561
levofloxacin
safety in patients with human immunodeficiency virus, 799
meropenem
patients with intra-abdominal infections, 151
norfloxacin nicotinate
effect of lactation on single doses to ewes, 2336
ofloxacin
kinetics of ofloxacin and metabolites after single intravenous infusion, 1849
penicillin
concentrations after increased doses of benzathine penicillin G for prevention of secondary rheumatic fever, 1203
9-(2-phosphonylmethoxyethyl)adenine
bioavailabilities in cynomolgus monkeys, 365
piperacillin
single doses to children, 2817
polyoxometalates
rats, 504
sparfloxacin
influence of fecal flora of healthy male volunteers, 455
patients with renal impairment, 733
spiramycin
transplacental passage and distribution in tissue of rhesus monkey fetus, 1922
tazobactam
single doses to children, 2817
ticarcillin-clavulanic acid
preterm neonates with presumed sepsis, 2024
tobramycin
effects of polyaspartic acid in two strains of rat, 79
zidovudine
effect of dipyridamole in asymptomatic human immunodeficiency virus-infected subjects, 1036
Phosphonium salts
dimethyl and trimethyl substituted
synthesis and antimicrobial activity, 945
9-(2-Phosphonylmethoxyethyl)adenine
pharmacokinetics
bioavailabilities in cynomolgus monkeys, 365
Phytosterols
P. carinii
presence, 2534
Piperacillin
Legionella spp.
comparative activities against clinical isolates, 144
in vitro extracellular and intracellular activities, 200
pharmacokinetics
single doses to children, 2817
Piperacillin-tazobactam
K. pneumoniae
different ratios for treatment of experimental meningitis, 195
Legionella spp.
in vitro extracellular and intracellular activities, 200
penetration
cancellous and cortical bone tissues, 905
in bronchial secretions after multiple doses to intensive care patients, 2780
Plasmodium falciparum
5-fluoroorotate resistance
selection and characterization of cells, 2871
acridine alkaloids
in vitro activities, 1169
antimalarial endoperoxides
reaction with specific parasite proteins, 1854
bisbenzylisoquinolone alkaloids
in vitro activities, 96
chloroquine resistant
enhancement of susceptibility by neuronal monoamine reuptake inhibitors, 1419
fluoroquinolones
in vitro activities, 1169
ICI D1694
susceptibility, 476
licochalcone A
inhibition of in vitro growth, T5
lovastatin
inhibition of in vitro development in human erythrocytes, 1144
simvastatin
inhibition of in vitro development in human erythrocytes, 1144
thymidine
susceptibility, 476
Plasmodium vivax
rifampin
antimalarial effects, 511
Plasmodium yoelii
licochalcone A
protection of mice, T5
Pneumocandins
L-733,560
increased antifungal activity due to enhanced inhibition of cell wall synthesis, 2750
Pneumococci
susceptibility testing
comparison of WY-49605 with penicillin G, amoxicillin, amoxicillin-clavulanate, cefixime, cefaclor, cefpodoxime, cefuroxime, and cefdinir with 187 penicillin-susceptible and -resistant strains, 2902
time-kill methodology
comparative activities of penicillin G, RP 59500, erythromycin, sparfloxacin, ciprofloxacin, and vancomycin, 2065
Pneumococcus spp.
penicillin resistant
susceptibilities to eight β-lactams, 2905
penicillin susceptible
susceptibilities to eight β-lactams, 2905
Pneumocystis carinii
albendazole
inhibition of proliferation in inoculated immunosuppressed mice, 1834
β-1,3-glucan-specific antibody
use to study cyst wall, 2258
dapsone
levels in serum during once-weekly dosing, 1197
imidazole
resistance, 1859
iron chelators
use as therapeutic agents, 997
L-693,989
aerosolized form for prophylaxis in rats, 1397
L-733,560
effects of the pneumocandin B_0 analog, 2258
ornithine decarboxylase
implications for therapy, 2545
phytosterols
presence, 2534
pyrimethamine
levels in serum during once-weekly dosing, 1197
topoisomerases
selective inhibition compared with that of topoisomerases from mammalian cells, 1890
Pneumocystis carinii pneumonia
guanylhydrazones
therapy of immunosuppressed rats, 2572
Polyaminopropyl biguanide
Acanthamoeba spp.
quantitation and kinetics of killing, 886
Polymyxin B
nonapeptide
experimental gram-negative infections in mice, 374
Polymyxin B sulfate
agar plate diffusion
effects of agars on determination of potency, 2665
Polyoxometalates
pharmacokinetics
rats, 504
Prophylaxis
gram positive
randomized trial with patients undergoing bone marrow transplantation, 576
standard
randomized trial with patients undergoing bone marrow transplantation, 576
Pseudomonas aeruginosa
amikacin
pharmacokinetic and pharmacodynamic approach for comparing two therapeutic regimens, 981
azithromycin
in vitro exoenzyme-suppressing activi-

ties, 528
azlocillin
time-survival studies for quantifying effects, 1271
β-lactam resistant
role of efflux pumps, 1742
β-lactamases
sequence analysis of PER-1 and comparison with class A β-lactamases, 104
biofilms
biofilm accumulation model that predicts antibiotic resistance, 1052
ceftazidime
killing during infusion in an in vitro pharmacokinetic model, 931
chloramphenicol resistant
role of efflux pumps, 1732
ciprofloxacin
effects on in vitro adhesion and survival of strain AK1 on urinary catheters, 1490
investigation of penetration into biofilms, 2125
serum bactericidal activities in 30 patients, 837
imipenem
pharmacodynamic effects of subinhibitory concentrations in an in vitro dynamic model, 1416
norfloxacin
effects on in vitro adhesion and survival of strain AK1 on urinary catheters, 1490
norfloxacin resistant
role of efflux pumps, 1732
ofloxacin
effects on in vitro adhesion and survival of strain AK1 on urinary catheters, 1490
PAO1
cloning and nucleotide sequence of DNA gyrase *gyrA* gene from strain and quinolone-resistant isolates, 1944
quinolones
mechanisms of high-level resistance in urinary tract isolates, 1466
tetracycline resistant
role of efflux pumps, 1732
tobramycin
pulmonary retention of free and liposome-encapsulated forms after administration in rats, 1090
time-survival studies for quantifying effects, 1271
Pseudomonas cepacia
letters to the editor
analysis of *penA* gene, 407
Pyrimethamine
P. carinii
levels in serum during once-weekly dosing, 1197

Quinolones
A. salmonicida
gyrA mutations in isolates of the fish pathogen, 2460
AM-1155
in vitro activity, 594
anti-*M. avium* activities
predicted active structures and mechanistic considerations, 1794
B. fragilis
comparative activities of eight agents, 1442
Bay Y 3118
eradication of *L. monocytogenes* from infected mice and L929 cells, 1501
biphenylacetic acid
possible intermolecular interaction inhibits aminobutyric acid receptor sites, 2323
Campylobacter spp.
evolution of susceptibilities, 1879
coryneforms
comparative activities of eight new agents, 1439
DU-6859a
in vitro and in vivo antimycobacterial activities, 2877
E. coli
comparison of inhibition of topoisomerase IV with DNA gyrase inhibition, 2623
gram-positive bacteria
minireview, 163
L. monocytogenes
eradication from infected mice and L929 cells by Bay Y 3118, 1501
minireview
gram-positive bacteria, 163
Mycobacterium spp.
in vitro susceptibilities, 134
N. gonorrhoeae
in vitro resistance in penicillinase-producing strains in Hawaii, 2200
OPC-17116
in vitro activities against *C. pneumoniae*, 1402
P. aeruginosa
mechanisms of high-level resistance in urinary tract isolates, 1466
resistance loci
mediation by *norA* and relationship to *flqB*, locus on *S. aureus* chromosome, 1345

Radioimmunoassay
zalcitabine
determination of levels in human plasma, urine, and cerebrospinal fluid, 2763
Radioimmunoassays
fialuridine
initial assessment of pharmacokinetics after single oral doses to healthy volunteers, 2134
zidovudine
evidence of alkaline phosphatase interference, 2689
Recombinant virus assay
human immunodeficiency virus type 1
assessment of drug susceptibility isolates, 23
Respiratory synctial virus
intranasal monoclonal immunoglobulin A
protection against upper and lower respiratory tract infections in mice, 2785
Respiratory syncytial virus
sulfonic acid polymers
in vitro and in vivo inhibition, 256
Reverse transcriptase inhibitors
human immunodeficiency virus type 1
susceptibilities of enzyme and viral variants expressing multiple resistance-engendering amino acid substitutions, 1404
Rhinovirus
soluble intercellular adhesion molecule 1
in vitro selection of relatively resistant strains, 66
Ribavirin
subacute sclerosing panencephalitis virus
effect on infections in hamsters, 653
Rifabutin
M. avium complex
comparative in vivo activities, 234
inhibition of binding to HT-29 intestinal mucosal cells, 1200
mouse tuberculosis
effectiveness alone or in combination with isoniazid in preventive therapy, 2346
toxoplasmosis
murine models of infection, 570
Rifabutin-isoniazid
mouse tuberculosis
effectiveness in preventive therapy, 2346
Rifampin
high-performance liquid chromatography
penetration of and bactericidal activity within endothelial cells, 1059
L. monocytogenes
inhibition of intracellular growth, 438
multivariate analysis
comparative evaluation, 184
Mycobacterium spp.
characterization in pathogenic strains, 2380
N. meningitidis resistance
molecular characterization, 1256
P. vivax
antimalarial effects, 511
S. pneumoniae
therapy of experimental meningitis in rabbits, 1186
tuberculosis
tuftsin-bearing liposomes in treatment of mice, 588
Rifamycin
KRM-1648
in vitro and in vivo activities, 1118
KRM-1657
in vitro and in vivo activities, 1118
Rifapentine
M. avium complex
comparative in vivo activities, 234
Roxithromycin
bone marrow transplantation
randomized trial in patients receiving fluoroquinolone prophylaxis, 465
leukemia
randomized trial in patients, 465
lipopolysaccharide-induced airway inflammation
inhibition of vascular leakage and neutrophil accumulation in rat trachea, 1641
M. avium complex
activities alone and in combination with other drugs, 1433
Oxyrase agar dilution
comparison with reference agar dilution method for susceptibility testing of anaerobes, 211

RP 59500
endocarditis
in vivo activities and penetration of two components, 432
Rufloxacin
MF 922
in vitro antimycoplasmal activities, 2651

Saccharomyces cerevisiae
22,23-epoxy-2-aza-2,3-dihydrosqualene
inhibition of sterol synthesis in conjunction with corresponding *N*-oxide, 1904
bleomycin
potentiation of cytotoxicity, 1615
cytosine
uptake affected by fenpropimorph, 1004
PDR5
loss of function mutation in multiple drug resistance gene causes reduction in chloramphenicol efflux, 2492
pentamidine isethionate
effects, 1123
pentamidine resistance
characterization of the *PNT1* gene, 2850
uracil
uptake affected by fenpropimorph, 1004
Saperconazole
amphotericin B
efficacy and interactions in therapy of murine disseminated candidiasis, 371
Serratia marcescens
β-lactamases
cloning and sequence analysis of gene for Sme-1 from strain S6, 1262
ciprofloxacin
in vivo activities in an experimental model of endocarditis, 883
metallo β-lactamases
molecular characterization, 71
pefloxacin
in vivo activities in an experimental model of endocarditis, 883
Shigella dysenteriae
PCR
detection of 4-quinolone resistance mutation in *gyrA* gene of type 1, 2488
Shigella spp.
traveler's diarrhea
antimicrobial resistance of isolates, 2668
Simian immunodeficiency virus
U-75875
effect on infection in rhesus monkeys, 1277
Simvastatin
B. divergens
inhibition of in vitro development in human erythrocytes, 1144
P. falciparum
inhibition of in vitro development in human erythrocytes, 1144
Sinefungin
Cryptosporidium spp.
studies with immunodeficient mouse model, 865
Soluble intercellular adhesion molecule 1
rhinovirus
in vitro selection of relatively resistant strains, 66
Soluble intercellular adhesion molecule type 1
rhinovirus
activities compared with those of chimeric soluble intercellular adhesion molecule type 1/immunoglobulin A molecule, 1425
spectrum of activity against reference strains and field isolates, 1413
Sparfloxacin
antagonism
$GABA_A$ receptor of rat vagus nerve, 1356
C. pneumoniae
in vitro activities, 1402
protective effects in experimental pneumonia in leukopenic mice, 1757
ceftriaxone
comparative evaluation for treatment of experimental endocarditis due to penicillin-susceptible and -resistant streptococci, 2683
L. monocytogenes
inhibition of intracellular growth, 438
M. avium complex
inhibition of binding to HT-29 intestinal mucosal cells, 1200
M. leprae
clinical trial for lepromatous leprosy, 61
M. pneumoniae
in vitro and in vivo activities, 738
penetration
human brain tissue, 1356
pharmacokinetics
influence of fecal flora of healthy male volunteers, 455
patients with renal impairment, 733
pneumococci
antipneumococcal activities by time-kill methodology, 2065
Spiramycin
pharmacokinetics
transplacental passage and distribution in tissue of rhesus monkey fetus, 1922
T. gondii
effectiveness for treatment of congenital infections in rhesus monkeys, 1930
T. gondii resistance
comparison of mutants, 31
Staphylococcus aureus
β-lactams
comparison with glycopeptides in treatment of subcutaneous abscesses, 1023
cephalosporin-rifampin
failure of time-kill synergy studies to predict in vivo antagonism of combinations, 2191
ciprofloxacin
serum bactericidal activities in 30 patients, 837
clinafloxacin
bactericidal activities, 1868
daptomycin
role of tolerance in treatment and prophylaxis of experimental endocarditis, 487
DNA sequencing
detection of novel mutations in *gyrA* gene, 428
DU-6859a
bactericidal activities, 1868
endocarditis
activities of teicoplanin, vancomycin, and gentamicin alone and in combination in an in vitro pharmacodynamic model, 2034
fluoroquinolone resistance
in vivo selection of a mutant during pefloxacin therapy, 1149
methicillin resistance
altered production of penicillin-binding protein 2a can affect phenotypic expression, 2568
comparison of tests for detection in a clinical microbiology laboratory, 345
methicillin resistant
comparison of teicoplanin, teicoplanin-rifampin, and vancomycin for treatment and prophylaxis of experimental foreign body infection, 1703
mechanisms of heteroresistance, 724
production of A and C variants of staphylococcal β-lactamase, 1649
reassessment of number of auxiliary genes essential for expression of high-level resistance, 2590
mupirocin resistance
molecular characterization of gene encoding resistance of strain J2870, 1205
nonradioisotopic single-strand conformation polymorphism analysis
detection of novel mutations in *gyrA* gene, 428
oxacillin resistant
minocycline versus vancomycin for treatment of experimental endocarditis, 1515
mupirocin resistance among consecutive isolates at a university hospital, 1664
pharmacodynamics
levofloxacin, ofloxacin, and ciprofloxacin, alone and in combination with rifampin, in methicillin-susceptible and -resistant strains, 2702
platelet microbicidal protein
in vitro resistance correlates with endocarditis source, 729
quinolone resistance
mutations in the DNA gyrase *gyrA* and *gyrB* genes, 2014
strain J2870
molecular characterization of gene encoding high-level mupirocin resistance, 1205
teicoplanin
role of tolerance in treatment and prophylaxis of experimental endocarditis, 487
vancomycin
efficacies of different dosing regimens determined with a dynamic in vitro model, 2480
role of tolerance in treatment and prophylaxis of experimental endocarditis, 487
Staphylococcus epidermidis
clarithromycin
interaction between antibiotic and biofilms, 138
methicillin resistant
lack of *mecA* transcription in slime-neg-

ative phase variants, 1251
Staphylococcus spp.
cefazolin
prophylactic efficacy in experimental wound model, 1325
ciprofloxacin
prophylactic efficacy in experimental wound model, 1325
fluoroquinolones
dissociated resistance among strains, 2095
methicillin resistant
dissemination of DNA sequences, 438
ofloxacin
prophylactic efficacy in experimental wound model, 1325
trimethoprim resistant
possible role of IS*257* in dissemination and expression of high and low levels of resistance, 2238
vancomycin
prophylactic efficacy in experimental wound model, 1325
Streptococcus pneumoniae
biapenem
susceptibilities of penicillin-susceptible and -resistant isolates, 898
broth microdilution
in vitro activities of 12 orally administered antimicrobial agents against respiratory pathogens from U.S. medical centers in 1992 and 1993, 2419
cefepime
susceptibilities of penicillin-susceptible and -resistant isolates, 898
cefotaxime
susceptibilities of penicillin-susceptible and -resistant isolates, 898
cefpirome
susceptibilities of penicillin-susceptible and -resistant isolates, 898
ceftazidime
susceptibilities of penicillin-susceptible and -resistant isolates, 898
ceftriaxone
efficacy against penicillin-susceptible and -resistant strains in a mouse pneumonia model, 1953
susceptibilities of penicillin-susceptible and -resistant isolates, 898
FK 037
susceptibilities of penicillin-susceptible and -resistant isolates, 898
imipenem
susceptibilities of penicillin-susceptible and -resistant isolates, 898
meningitis
antibiotic therapy and acute outcome with strains intermediately susceptible to broad-spectrum cephalosporins, 918
meropenem
susceptibilities of penicillin-susceptible and -resistant isolates, 898
oxacillin resistant
genetics of oxacillin resistance in clinical isolates, 49
penicillin resistant
experimental respiratory infections in neutropenic rats, 608
in vitro killing activities of antibiotics in cerebral spinal fluid from children with meningitis, 2655
in vitro selective antibiotic concentrations of β-lactams, 122
treatment of experimental endocarditis, 1103
penicillin susceptible
genetics of oxacillin resistance in clinical isolates, 49
rifampin
therapy of experimental meningitis in rabbits, 1186
vancomycin
susceptibilities of penicillin-susceptible and -resistant isolates, 898
Streptococcus pyogenes
broth microdilution
in vitro activities of 12 orally administered antimicrobial agents against respiratory pathogens from U.S. medical centers in 1992 and 1993, 2419
Streptogramins
RP 59500
in vivo activities and penetration of two components, 432
Streptomyces ambofaciens
fluoroquinolones
stimulation of genetic instability and associated large genomic rearrangements, 1985
Streptomyces spp.
tetracycline resistance
acquisition of determinants, 1408
Streptomyces viridodiastaticus
subsp. "*littus*" LL-31F508
mechanistic studies and biological activity of bioxalomycin α-2, 1808
Streptomycin
Mycobacterium sp. resistance
role of permeability barriers, 238
Subacute sclerosing panencephalitis virus
ribavirin
effect on infections in hamsters, 653
Sucralfate
ketoconazole
in vitro analysis of interaction, 319
in vivo interaction in healthy volunteers, 326
norfloxacin
effect on absorption, 248
ofloxacin
effect on absorption, 248
Sulbactam
β-lactamases
comparative activities, 767
Sulfamethoxazole-trimethoprim
C. albicans
colonization of gastrointestinal tracts of mice, 602
Susceptibility testing
A. baumannii
clinical isolates from Singapore, 2502
A. haemolyticum, 142
acyclovir
correlation between response and result for herpes simplex virus isolates, 1246
B. fragilis
longitudinal study with five agents in three medical centers, 2276
C. albicans
improved medium for fluconazole, 45
Campylobacter spp.
10 antimicrobial agents against strains isolated from feces of pediatric patients, 2917
Candida spp.
fluconazole, 1422
clarithromycin
C. pneumoniae isolates from children with pneumonia, 1588
coagulase-negative staphylococci
minireview, 2231
D. fragilis ATCC 30948
iodoquinol, 1157
metronidazole, 1157
paromomycin, 1157
tetracycline, 1157
E. coli
peroxides and isoniazid, 1829
erythromycin
C. pneumoniae isolates from children with pneumonia, 1588
fluconazole
Candida spp., 1422
improved medium, 45
foscarnet
correlation between response and result for herpes simplex virus isolates, 1246
H. influenzae
susceptibilities of Canadian isolates and characterization of their β-lactamases, 1678
Listeria spp.
activities of gentamicin, erythromycin, streptomycin, chloramphenicol, ampicillin, sulfamethazine, cephalothin, penicillin G, and tetracycline, 1655
M. smegmatis
peroxides and isoniazid, 1829
N. gonorrhoeae
persistence of strains with decreased susceptibilities to ciprofloxacin and ofloxacin in Cleveland, Ohio, 2194
strains isolated in Surbaya, Indonesia, 2530
strains representing five distinct resistance phenotypes, 155
N. meningitidis
decreased susceptibility to penicillin G and Tet M plasmids in genital and anorectal isolates, 1661
pneumococci
comparison of WY-49605 with penicillin G, amoxicillin, amoxicillin-clavulanate, cefixime, cefaclor, cefpodoxime, cefuroxime, and cefdinir with 187 penicillin-susceptible and -resistant strains, 2902
X. maltophilia
susceptibilities of 123 strains tested by five methods, 2317
Y. enterocolitica
pathogenic strains isolated in Canada from 1972 to 1990, 2121
Synergy
β-lactams
glycopeptide-resistant strains of *E. faecium*, 824
glycopeptides
glycopeptide-resistant strains of *E. faecium*, 824

Tazobactam
β-lactamases
comparative activities, 767
Legionella spp.
comparative activities against clinical isolates, 144
pharmacokinetics
single doses to children, 2817
Teicoplanin
E. faecium
activities alone and in combinations, 1225
hematologic malignancies
effects in initial empirical antibiotic regimen for febrile, neutropenic patients, 2041
multivariate analysis
comparative evaluation, 184
S. aureus
drug alone, teicoplanin-rifampin, and vancomycin for treatment and prophylaxis of experimental foreign body infection by methicillin-resistant strains, 1703
role of tolerance in treatment and prophylaxis of experimental endocarditis, 487
Temafloxacin
ciprofloxacin
effects on T-lymphocyte function, 879
L. monocytogenes
inhibition of intracellular growth, 438
Terbinafine
human polymorphonuclear leukocytes
effects of allylamine antifungal drugs on selected functions, 2605
Tetracycline
E. faecalis resistance
presence of *Listeria* gene *tet*(S), 2330
resistance
tetA(B) gene and substrate specificity of tetracycline efflux pump, 857
Tetracyclines
glycylcyclines
inhibition of protein synthesis occurring on tetracycline-resistant, TetM-protected ribosomes, 1658
minireview
analogs whose primary target is not the bacterial ribosome, 637
Thymidine
P. falciparum
susceptibility, 476
Ticarcillin-clavulanic acid
pharmacokinetics
preterm neonates with presumed sepsis, 2024
Tobramycin
nephrotoxicity
attenuation by daptomycin, 742
protection by ceftriaxone, 750
P. aeruginosa
pulmonary retention of free and liposome-encapsulated forms after administration in rats, 1090
time-survival studies for quantifying effects, 1271
pharmacokinetics
effects of polyaspartic acid in two strains of rat, 79
pig kidney cell membrane
fluidity during exposure, 2169
Torulopsis glabrata
amphotericin B
treatment of disseminated infection, 1604
DO870
treatment of disseminated infection, 1604
Toxicity
amphotericin B deoxycholate
influence of diet, 963
nephrotoxicity
daptomycin may attenuate that of tobramycin by electrostatic complexation, 742
zidovudine
quantitative relationships between exposure and efficacy, 1726
Toxoplasma gondii
artemisinin ether
in vitro effects, 1392
azithromycin
localization in infected cells, 1620
azithromycin resistance
comparison of mutants, 31
clindamycin resistance
comparison of mutants, 31
cycloguanil
in vitro effects, 1392
cycloguanil-sulfadiazine
in vitro effects, 1392
epiroprim
activity alone and in combination with dapsone, 1803
mefloquine
in vitro effects, 1392
primaquine phosphate
in vitro effects, 1392
quinine sulfate
in vitro effects, 1392
spiramycin
effectiveness for treatment of congenital infections in rhesus monkeys, 1930
spiramycin resistance
comparison of mutants, 31
trifluoperazine hydrochloride
in vitro effects, 1392
verapamil
in vitro effects, 1392
Toxoplasmosis
rifabutin
murine models of infection, 570
Triazoles
D0870
in vitro activity against *C. albicans* isolates from oral cavities of patients infected with human immunodeficiency virus, 2553
murine trichosporonosis
efficacy compared with those of amphotericin B and amphotericin B-triazoles, 2541
Tribactams
GV104326
in vitro activities against gram-positive, gram-negative, and anaerobic bacteria, 2362
Trimethoprim
Staphylococcus sp. resistance
possible role of IS*257* in dissemination and expression of high and low levels of resistance, 2238
Trimethoprim-sulfamethoxazole
H. ducreyi resistance
emergence in Rwanda, 1647
lomefloxacin
comparison for treatment of complicated urinary tract infections, 1368
Trypanosoma brucei rhodesiense
DL-α-difluoromethylornithine
combination chemotherapy of drug-resistant infections in mice, 563
trypanocides
combination chemotherapy of drug-resistant infections in mice, 563
Tuberculosis
rifampin
tuftsin-bearing liposomes in treatment of mice, 588
Tumor necrosis factor
K. pneumoniae
influence of antimicrobial therapy on kinetics in experimental endocarditis, 1017
lipopolysaccharide-stimulated macrophages
modulation of secretion by unilamellar liposomes, 2671
peripheral benzodiazepine receptor ligands
effect on activity in thioglycolate-treated mice, 812

Ureaplasma urealyticum
glycylcyclines
susceptibility compared with that to older tetracyclines, 2628

Valaciclovir
human immunodeficiency virus
phase I trial in patients with advanced disease, 1534
Vancomycin
hematologic malignancies
effects in initial empirical antibiotic regimen for febrile, neutropenic patients, 2041
high-performance liquid chromatography
penetration of and bactericidal activity within endothelial cells, 1059
multivariate analysis
comparative evaluation, 184
penetration
mediastinal and cardiac tissues in humans, 396
pneumococci
antipneumococcal activities by time-kill methodology, 2065
S. aureus
comparison with minocycline for treatment of oxacillin-resistant experimental endocarditis, 1515
comparison with teicoplanin and teicoplanin-rifampin for treatment and prophylaxis of experimental foreign body infection by methicillin-resistant strains, 1703
efficacies of different dosing regimens determined with a dynamic in vitro model, 2480
role of tolerance in treatment and prophylaxis of experimental endocarditis, 487
S. pneumoniae
susceptibilities of penicillin-susceptible and -resistant isolates, 898

Staphylococcus spp.
prophylactic efficacy in an experimental wound infection, 1325
Viridans streptococci
dextranase
enhancement of antibiotic efficacy in experimental endocarditis, 953
platelet microbicidal protein
in vitro resistance correlates with endocarditis source, 729

Xanthomonas maltophilia
β-lactamases
biochemical properties, 2143
β-lactams
susceptibilities of 123 strains tested by five methods, 2317
ciprofloxacin
susceptibilities of 123 strains, 369
susceptibilities of 123 strains tested by five methods, 2317
clinafloxacin
susceptibilities of 123 strains, 369
ofloxacin
susceptibilities of 123 strains, 369
PD 131628
susceptibilities of 123 strains, 369
PD 138312
susceptibilities of 123 strains, 369
PD 140248
susceptibilities of 123 strains, 369
susceptibility patterns
implications for therapy, 624

Yersinia enterocolitica
susceptibility testing
pathogenic strains isolated in Canada from 1972 to 1990, 2121
Yersinia pestis
amoxicillin
treatment of murine infection, 481
cefotaxime
treatment of murine infection, 481
ceftriaxone
treatment of murine infection, 481
doxycycline
treatment of murine infection, 481
gentamicin
treatment of murine infection, 481
ofloxacin
treatment of murine infection, 481

Zalcitabine
radioimmunoassay
determination of levels in human plasma, urine, and cerebrospinal fluid, 2763
Zidovudine
dideoxynucleoside resistance
emergence with prolonged monotherapy, 307
human immunodeficiency virus type 1 resistance
susceptibilities of variants to inhibition by acyclic nucleoside phosphonates, 1683
murine leukemia virus
impact of dosing schedule, 628
peripheral blood mononuclear cells
comparison of rates of intracellular metabolism in human and primate cells, 2398
pharmacokinetics
effect of dipyridamole in asymptomatic human immunodeficiency virus-infected subjects, 1036
radioimmunoassays
evidence of alkaline phosphatase interference, 2689
toxicity
quantitative relationships between exposure and efficacy, 1726
Zidovudine triphosphate
enzymatic assay
measurement in peripheral blood mononuclear cells, 115
